Objective

To get a challenging position in which I can successfully offer my professional talents while also holding competent technological skills for the benefit of the company. As well as gaining a wide range of skills and expertise in my chosen field.

Technical Skills

- **Languages:** HTML, CSS, Javascript, Python, Core Java, MySQL, C/C++
- **Programming:** Object Oriented Programming, Data Structures & Algorithms, DBMS.
- **Developer Tools:** Git, VS Code, JIRA, PyCharm, Eclipse, Jenkins, Salesforce, Adobe Campaign Classic, Azure
- **Framework:** Spring boot (JAVA), Flask(Python).
- **Certifications:** 1. Google Cloud: Engineering Track and Data Science and Machine Learning Track In 30 Days of Google Cloud Program.
2. Data Science: Python for data science master course

Experience

Company: Motorola Solutions

Sept 2022- July 2023

- **Role:** Adobe Campaign Developer.
- **Responsibility:** Contributed as Backend Developer with Development Team, Code Enhancement, CI/CD Pipeline, DevOps. Analyzed data to identify and target key audience segments aligned with Business Requirements Documents (BRD), to build the campaigns.

Company: Carelon Global Solutions.

Aug 2023- Present

- **Role:** Adobe Campaign Classic (Adobe Campaign Developer.)
- **Responsibility:** With the support of BRD, I used to design & create campaigns and write the java script to implement the workflow, load the necessary data through a technical workflow, and then push the data to Salesforce. Once the campaigns are ready, we migrate them to production & automate them as needed.

Projects

- **E-Learning-** The idea is to provide a website where the students can easily get tutors.
-Made using Java Script, HTML, CSS.
- **Quick Fill-** To Create a System for automatic uploading of documents to the websites where documents are required.
-The tools used- Android App Development, Full Stack web development, API's, MYSQL.
