Projects

- Automatic Speaker Recognition under Noisy Environment for limited Users
(M.Tech thesis project under **Prof. Goutam Saha**) (July '22 - April '23)
- Image Denoising using Wavelet Transform (Sept '21 - Nov '21)
- Biometric Authentication using Mouse Dynamics (Sept '21 - Nov '21)
- A Fuzzy directional median filter for fixed-value Impulse Noise Removal

Skills

- Machine Learning, Python, C++, Pytorch, Numpy, Jupyter Notebook
- Digital Image Processing, Pattern Recognition
- Audio Signal Processing, Noise reduction techniques
- Experience with analytical problem-solving
- Excellent communication and interpersonal skills

EXPERIENCE

Assistant System Engineer | Feb 2021 - Sept 2021

Tata Consultancy Services, Hyderabad

Provided Solutions for Supply chain mechanism errors and organized supply chain mechanisms for individual quarters for NXP semiconductors.

Chegg Solution Expert | April 2021 - Present

Chegg India, Freelance

Provide solutions for the problems given by the students. The problems are related to Engineering topics and also related to GATE examination

“

Dedicated and skilled Engineer with interests in AI/ML, DSP backgrounds. Proven experience in ML related signal processing.

”

EDUCATION

Master of Technology, 2021-2023

Visual Information and Embedded Systems, E&ECE department, IIT Kharagpur, WB

Bachelors of Technology, 2016-2020

Electronics and Communication Engineering, JNTUK Kakinada, AP

Certificate

C Programming

MICE, 2016

Chegg Solution Expert

Chegg India, 2023
