

Yaswanth Reddy Seethagari

+91 8431416424
yaswanth.seethagari9@gmail.com

Aspiring machine learning professional with a robust foundation in mathematics and data science, targeting opportunities as an AI-ML Engineer to leverage expertise in machine learning, artificial intelligence, data analysis & predictive modeling within innovative technology-driven organizations.

PROFILE SUMMARY

- Over two years of extensive experience in **machine learning** and **data science**, with a strong focus on applying advanced analytical techniques within the **technology** and **engineering** sectors.
- Currently working as a **Freelance Machine Learning Consultant & Mathematics Subject Matter Expert** at **CourseHero**, providing expert guidance and tailored solutions in **machine learning** and **mathematics** for a diverse global clientele.
- Progressed from a **Junior Data Scientist** at **L&T** to a **Machine Learning Engineer Associate** at **TCS**, gaining hands-on expertise in **data preprocessing, model development, and deployment** across various high-impact projects.
- Successfully delivered complex **machine learning solutions** in the current freelance role, enhancing the understanding and application of intricate concepts for learners worldwide.
- Deep expertise in **machine learning frameworks** and **methodologies**, including **supervised** and **unsupervised learning**, ensuring the development of **innovative, data-driven solutions** tailored to client needs.
- Expertise in utilizing cutting-edge **machine learning models** and **data analytics tools** to solve complex business problems and provide actionable insights across various industries.
- Proven ability to optimize **data pipelines**, ensuring **clean, accurate data** for **model development** and improving overall system efficiency.
- Demonstrated a **strong ability to mentor** junior data scientists, fostering a collaborative team environment and sharing knowledge to enhance team performance and project outcomes.

SOFT SKILLS

- Leadership & Delegation
- Communication & Collaboration
- Planning & Innovation
- Visionary & Decision-maker
- Analytical
- Problem- solving

EDUCATION

- B.Tech., Civil Engineering**, National Institute of Technology, Calicut, 2020, **89.4%**
- GATE 2024** in Computer Science, Achieved a rank of 15879.
- JEE Mains**, Rank of 13744.

TECHNICAL SKILLS

Category	Tools/Technologies
Data Handling	Data Collection, Data Preparation, Data Analysis, ETL Process
Programming	Python, SQL, Github, Docker
Machine Learning	Random Forest, Hyperparameter Tuning, Scikit-Learn, Machine Learning
Deep Learning	Deep Learning, CNN, TensorFlow
Natural Language Processing	Sentiment Analysis, Natural Language Processing, RAG, LangChain
AI & Analytics	Fraud Detection, Predictive Analytics, Generative AI, Forecasting, Credit Risk Modelling, Optimization
Cloud & Operations	AWS, MLOps

PROFESSIONAL DEVELOPMENT AND FREELANCING EXPERIENCE (CAREER BREAK)

- Freelance Expertise: Working as a Freelance Machine Learning and Mathematics Subject Matter Expert at Course Hero, delivering high-quality written solutions and providing step-by-step guidance for a global audience. |Work from home | Feb 2023 – Present.
- GATE 2024 Preparation: Prepared for GATE 2024 in Computer Science Engineering and achieved a rank of 15879. | Feb 2023 – Feb 2024.
- Completed Key Certifications: Earned the IBM Data Science Professional Certificate and Machine Learning Specialization from Stanford University (Coursera), gaining expertise in TensorFlow, ETL pipelines, Python, and AWS | Feb 2024 – Nov 2024.
- Pursuing Advanced Specializations: Currently advancing skills and staying updated with the latest industry trends and tools through Deep Learning Specialization (DeepLearning.ai) and AWS Certified Machine Learning Specialty. | Nov 2024 – Present.

WORK EXPERIENCE

Machine Learning Engineer Associate at Tata Consultancy Services (TCS), Bangalore, India | Feb 2022 – Feb 2023

Sentiment Analysis on Customer Feedback

- ❖ Led the development of a Sentiment Analysis Pipeline using Large Language Models (LLMs) and LangChain, streamlining customer feedback classification and improving customer service efficiency by 30%.
- ❖ Integrated Retrieval-Augmented Generation (RAG) for context-aware sentiment analysis, enabling accurate classification of nuanced feedback and generating actionable insights through summarized reports and prioritized action items.
- ❖ Enabled real-time feedback processing with LangChain, cutting response time and enhancing customer satisfaction.

Credit Risk Modeling for BFSI Clients

- ❖ Spearheaded the creation of a credit risk prediction model that reduced loan approval time by 25% and improved decision-making accuracy.
- ❖ Enhanced business insights by presenting key risk trends through Power BI visualizations, which facilitated more informed decision-making among business stakeholders.
- ❖ Increased model accuracy by 12% through strategic risk factor analysis, improving financial decision-making and reducing potential loan defaults.

Fraud Detection in Transactions

- ❖ Developed an innovative fraud detection system that reduced false positives, driving improvements in financial transaction security.
- ❖ Collaborated with cross-functional teams to ensure the model was seamlessly integrated into live transaction systems, leading to a 20% reduction in fraudulent activities.
- ❖ Played a pivotal role in improving operational efficiency by reducing response times for fraud alerts, contributing to overall system security.

Junior Data Scientist at L&T Geo, Chennai, India | Aug 2020 – Dec 2021

Predictive Maintenance for Construction Equipment

- ❖ Championed the predictive maintenance initiative, resulting in a 20% reduction in unexpected equipment breakdowns and 18% reduction in maintenance costs.
- ❖ Enhanced operational efficiency by improving decision-making with real-time maintenance alerts, preventing costly downtime.
- ❖ Created actionable dashboards that improved data-driven decisions and streamlined the maintenance process, reducing analysis time by 30%.

Cost Estimation & Budget Optimization

- ❖ Drove a 15% improvement in budget prediction accuracy, reducing cost overruns and improving project financial forecasting.
- ❖ Optimized decision-making processes by developing cost forecasting models that integrated real-time data, reducing manual intervention and accelerating planning cycles.
- ❖ Delivered high-impact dashboards that improved financial oversight, increasing visibility and helping project managers make more informed decisions.

Material Demand Forecasting

- ❖ Led the development of demand forecasting models that improved material procurement accuracy, reducing inventory waste and ensuring just-in-time procurement.
- ❖ Improved supply chain efficiency by decreasing procurement delays and optimizing inventory management, resulting in a 12% reduction in material shortages.
- ❖ Enhanced visibility into material demand through dashboards, increasing procurement team efficiency and improving on-time delivery.

CERTIFICATIONS

- ❖ **IBM Data Science Specialisation Professional Certificate**
- ❖ **Machine Learning Specialisation**, Coursera, Stanford University, US
- ❖ **Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning**
- ❖ **Supervised Machine Learning: Regression and Classification**
- ❖ **Advanced Machine Learning Algorithms**
- ❖ **Unsupervised Learning, Recommenders, Reinforcement Learning**
- ❖ **ETL and Data Pipelines with Shell, Airflow, and Kafka**
- ❖ **Machine Learning with Python**, Offered by IBM
- ❖ **Python for Data Science, AI & Development**
- ❖ **Databases and SQL for Data Science with Python**
- ❖ **Data Analysis with Python**
- ❖ **Python Project for Data Science**
- ❖ **Applied Data Science Capstone Project**
- ❖ **Data Engineering Capstone Project**
- ❖ **AWS Cloud Technical Essentials**

In Progress:

- ❖ **Deep Learning Specialisation**, by DeepLearning.ai
- ❖ **Natural Language Specialisation**, by DeepLearning.ai
- ❖ **TensorFlow Developer Specialisation**, by DeepLearning.ai
- ❖ **Generative AI Professional Certification**, by IBM

- ❖ **AWS Certified Machine Learning Specialty**, by Stéphane Mareek

PROJECTS UNDERTAKEN

- ❖ **Data Science Methodology** – IBM Data Science Specialisation Professional Certificate
- ❖ **Image Classification Model** – Machine Learning Specialisation, Coursera, Stanford University
- ❖ **Image Recognition Neural Network** – Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning
- ❖ **Regression & Classification Models** – Supervised Machine Learning: Regression and Classification
- ❖ **Ensemble Learning Model** – Advanced Machine Learning Algorithms
- ❖ **Recommender System and Game-playing Agent** – Unsupervised Learning, Recommenders, Reinforcement Learning
- ❖ **ETL Pipeline Design** – ETL and Data Pipelines with Shell, Airflow, and Kafka
- ❖ **Customer Segmentation** – Machine Learning with Python, Offered by IBM
- ❖ **Data Analysis Project** – Python for Data Science, AI & Development
- ❖ **SQL Database and Data Extraction** – Databases and SQL for Data Science with Python
- ❖ **Exploratory Data Analysis (EDA)** – Data Analysis with Python
- ❖ **Web Scraping Project** – Python Project for Data Science
- ❖ **End-to-End Data Science Project** – Applied Data Science Capstone Project
- ❖ **Data Infrastructure Development** – Data Engineering Capstone Project
- ❖ **Cloud-based Data Processing** – AWS Cloud Technical Essentials

PERSONAL DETAILS

Date of Birth: 30th, Sept'1998

Languages Known: English, Hindi, Telugu, Kannada

Address: Bangalore
