EDUCATION

UIT RGPV

Computer Science Engineering B. Tech.

CGPA: 7.4

Bhopal (M.P.)

July 2019 - June 2023

EXPERIENCE

HeyCoach | Competitive Programming Engineer

Bengaluru, Karnataka | October 2023 - Present

- Guided and resolved queries of more than 500 learners on the concepts of DSA and System Design, generating a satisfaction level of 9.8/10.
- Brainstormed and developed different learning tools, using concepts of prompt engineering, frontend technologies and AI tools.
- Formulated problems and created content around DSA and System Design to assist with learning and conceptual improvement of learners, increasing the placement by 15%.
- Lead teams for implementation of various projects and learning tools.
- Managed a team of interns during the creation of these learning tools.
- Interviewed and vetted candidates for the role of CP engineer and interns.

Caden Enterprises | Game Developer (Intern)

Remote | Feb 2021 - May 2021

- Worked on multiple solo 2D games under the guidance of senior developers.
- Worked with a team on bigger projects such as developing an FPS controller for a 3D FPS game.
- Worked on other assets like animation, character designs, sound and other essentials.

SKILLS

Programming Languages: C++, C, Python, Javascript, Solidity

Libraries/Frameworks: React, BeautifulSoup, Tkinter, NodeJS, NumPy, Pandas, Langchain

Tools / Platforms: Git, VS Code, Unity, Blender

PROJECTS / OPEN-SOURCE

DSA Visualizer

Javascript, html, css, react

Created a learning tool which would help the learners visualize the working of different data structures.

Blog Generator

OpenAI, Python, VS Code

Writtern prompts that would auto-generate blogs with the help of OpenAI api and python.

Chess Magazine | Link

Python, BeautifulSoup, Tkinter, Pycharm

Created a digital magazine by using web scraper.

Land Registatration System Using Blockchain | Link

Solidity, VS Code, MetaMask, Brownie

Created a land registration system using blockchain technologies.

CERTIFICATIONS

- Data Mining - NPTEL IIT, Kharagpur
- Problem Solving - Hackerrank
