

Zen Mariam

+91 9027745570 | zainmariam2000@gmail.com | [GitHub](#) | [LinkedIn](#) | [Medium](#)

Aspiring data professional with a strong academic foundation in data analysis, statistical modelling, programming, machine learning and data visualization. Proficient in Python, R, and SQL, with a passion for leveraging data to solve real-world problems.

EDUCATION

MSc Data Science, Aligarh Muslim University | 2022-2024

Major: Data Science | Cumulative GPA: 8.5/10

BSc (Hons) Statistics, Aligarh Muslim University | 2018-2021

Major: Statistics | Minor: Mathematics, Physics | Cumulative GPA: 8.0/10

WORK EXPERIENCE

Simulanis Solutions Pvt. Ltd. | Noida, Jan 2024 - May 2024

Data Analyst Intern

- Collaborated with the product team to analyze company data using SQL and Python, identifying key trends.
- Developed dashboards using Power BI to visualize data and track key performance indicators (KPIs).

ACADEMIC PROJECTS

Deloitte: Unlocking Customer Insights

- Explored and preprocessed banking data, ensuring data readiness for analysis.
- Employed advanced Clustering Techniques to group customers.
- Derived actionable insights to drive personalized marketing strategies.

Restaurant Recommendation System

- Utilized K-Means Clustering for restaurant recommendations based on geographical coordinates.
- Demonstrated expertise in geospatial data analysis and machine learning.

Heart Attack Risk Prediction using Automated Machine Learning

- Leveraged EvalML for Automated Machine Learning.
- Explored multiple algorithms and optimized-hyperparameters.
- Improved model accuracy by 8% through hyperparameter optimization.

Sentiment Analysis Django Application

- Developed a Django web application for sentiment analysis.
- Utilized Natural Language Processing to analyze and classify text sentiment.
- Achieved 90% accuracy in sentiment classification

SKILLS

- **Programming:** Python, R, SQL, MySQL, C/C++, JavaScript, TensorFlow, Keras, Scikit-Learn, NumPy, Pandas, OpenCV, NLTK
- **BI Tools:** Microsoft Power BI, Tableau, MS-Excel, IBM SPSS, SAS
- **Relevant Courses:** Data Mining, Data Analysis (Quantitative and Qualitative), Big Data Analytics, Statistical Analysis and Modeling, Data Visualization, Operations Research, Market Research and Analysis, Time Series Analysis, Machine Learning, Deep Learning, natural Language Processing
- **Soft Skills:** Communication, Teamwork, Problem-Solving, Critical Thinking

CERTIFICATIONS

SQL for Data Science, University of California, Davis

Machine Learning, Stanford University

IT Automation with Python, Google

BI Data Engineer | Analyst: Power BI, SQL, DAX, Udemy

What is Data Science, IBM Skills Network

Open-Access Data Science & Advanced Analytics Virtual Experience Program, BCG
