Phone Number:-+91-9972170416

TOTAL EXPERIENCE-11YEARS&6 Months(TELECOM &NETWORK ENGINEERING DOMAIN)

Objective:-

Result driven Telecom Professional with 11 years & 6 months of expertise in telecom radio network infrastructure operation and having with strong track record of accurately conducting system repairs, troubleshooting, service management & project management.

Skills:---GSM, CDMA, GPRS, EDGE, UMTS 3G, LTE, VOLTE-IMS, 5G-NR, GERAN, CCNA(R&S certified), ITIL V4 Certified, CRAN, VRAN, ORAN, Small Cell, DAS, IOT.

Certifications:-CCNA (Routing Switching), CSM-Certified Scrum Master, ITIL V4-Foundation

? Organizational Experience:-

1. Current Organization:-Qualitest India Pvt Limited. Bangalore

Designation: -Specialist (RAN Testing)

Period :- (April 2021 to Till date)

Current Technical activities & Responsibilities

- Responsible for the integration plan, test specifications and scripts, test execution, defect management and the coordination of the environment design and deployment.
- Independent in analyzing the testing requirements, perform requirements review, preparing test scenarios/ test cases, run test cases/ report & follow up on defects.
- Maintain up to date test log covering defects, issues and concerns to be able to mitigate risks and issues.
- Participate and contribute to the project & technical calls & support Test manager in test planning activities.
- Experience in analyzing test log and solution to error codes.
- Support and mentor the team members in technical and non-technical areas including new technologies, processes etc.
- Relevant industry knowledge of RAN (2G, 3G, and 4G) and exposure to 5G & ORAN..

2. Previous Organization:- AT&T Communication Services India Pvt Limited, Bangalore

Designation: - Technical Specialist (RAN Engineering)

Period :- (August 2014 to March 2021 onwards to till date)

- Handled Tier 2 support on AT&T RAN network for, Fault troubleshooting, and Performance management on Nokia, Siemens, ALU, and Ericsson RAN equipment, (UMTS=RNC/Node-B, LTE=eNode-B, & gNodeB).
- Hands-on experience on Lucent Node B9370 & ALU ENodeB -9926, 9214, Nokia-AirScaleEnb, Siemens BTS, BSC and Ericsson RBS-3000 and 6000 series 3G and LTE standards/technologies
- Manage vendor -ALU/Ericsson/NOKIA air scale eNodeB Tickets and also engage during maintenance activity.
- Assisting Field, techs during Maintenance activity for Hardware replacement for LTE Nokia ENode-B.
- Joins on critical outage/SIR and also monitor daily maintenance activity.
- Analyzing data from multiple network domain (RAN, Core, IP, TX) and spot correlated KPI Network.
- Excellent understanding of LTE PHY, MAC, RLC, PDCP, RRC, S1AP, X2AP, RRM, SON, EMS.
- LTE eNodeB /5G RAN/ VRAN feature/functionality testing/ NEA testing.
- Circuit Testing using JDSU net analyst for transport related Issues SIAD ALU & Cisco router.
- Troubleshoot for isolation of T1 circuit connectivity in JDSU net analysis & maintain SLA.
- Engage with LECs regarding Out-of-Service and Impaired condition type circuits driving down TTR,

monitors real time networks.

- Liaise with 3rd Party Suppliers Vendors for resolution of the Faults Problems needing vendor support.
- Communicates customer-impacting trends & ideas to management on daily basis, for network improvement.
- Conducted NEA testing alarm simulation for UMTS LTE & LTE Pro-5G NR. Small cell solutions including in-building solutions DAS. Small Cell.

3. Previous Organization:- HUAWEI TELECOMMUNICATIONS (INDIA) CO., PVT.LTD, GNOC

Project: -Global Network Operation Center (GNOC), Whitefield, Bangalore

Designation: - Engineer. (OSS O&M)

Period : -30th January 2013 to 31st July -2014

? Technical Support & Responsibilities:

- Responsible for back end O&M support of Huawei global GSM(2G, 3G & LTE) network , as an OSS O&M Engineer.
- Performing all OSS applications like, Alarm Monitoring, Fault Management, CM Editor, CM operation upload, Software manager, Measurement of Administration etc.
- End to end troubleshooting for the issues related to OSS Platform, Fault Management, User Management & Security Management.
- Initiating diagnosing all NE's from OSS, like Alarm checking & measurement arrival.
- Hands on experience CITRIX-XenApp, Citrix -Active Directory, CLOUD Virtual Machine, LMT, PUTTY, Secure CRT, Linux &Remedy.
- Performing regular health checkup of the OSS Servers-Tools, Citrix-Xen App & DCN across multiple OSS & ensures OSS is in healthy condition.
- Giving support Huawei OSS NMS & EMS tools for global operation daily 24*7 basis.
- Understanding of core technologies & RAN interface design with multi-vendor environment.
- Strong knowledge of 2G (GSM-GERAN),3G (UMTS-UTRAN) interfaces, Packet Core-SGSN,GGSN, PDSN,SS7, LTE,radio architecture and radio resource management.
- Taking steps for ensuring System Security is not breached and managing User life cycle.
- Executing & monitoring the connectivity of Huawei OSS element.
- Change management activities, activation/deactivation of system functionalities, deployment, end-to-end testing, providing remote support and troubleshooting.
- Work with different tech teams &3rd party vendors as needed to resolve customer voice/data issues.
- Familiar with Operation & Maintenance Service contract (definitions, responsibilities, SLA).

4. Previous Organization:- Alcatel-Lucent Managed Solutions, Ranchi, Jharkhand.

Project :- Reliance Telecom India Limited, 2G & 3G-UMTS Network.

Designation:-Engineer (GERAN/UTRAN)

Period: -27th April 2010 to 18th January 2013

Handling of OMCR (MOTOROLA, ZTE-V2 BSC, iBSC, ALCATEL-LUCENT &Huawei) for **Configuration, Performance, Surveillance & Fault related activity** both 2G &3G-UMTS Network.

? Configuration Management

- Accountable for the database definition & creation for GSM network entity (BTS) & Node-B.
- Involved in providing, remote technical support to Motorola, Huawei, Alcatel & ZTE GSM-BSS.
- Providing online support to field BSC& BSS Engineers involved in Network Expansion &Integration on regular basis.
- Responsible for arranging backup and routine audits of the Network.
- Accountable for implementation of new frequency plan for, hopping and non-hopping towns/sites.
- Responsible for re-homing of sites, from one BSC to another BSC.
- Software up-gradation of OMCR as per requirement.

- Taking AUDIT & Upload of all BSC,RNC & XCDR as per requirement,& also regular basis.
- Addition and modification of RF, GPRS parameters for site optimization.
- GPRS or EDGE implementation on every cell by analyzing network congestion report.
- Execution of planned activity in the respective region.
- Accountable for the dimensioning of TCH & SDCCH and ensuring congestion free network.
- Performance monitoring and analysis of BTS sites, BSC's & Transcoders using ALU, HUAWEI, MOTOROLA & ZTE OMCR equipment.
- Responsible for Handover analysis & Implementation of hopping database and RF planning related parameters.

Professional Skill Set:-

- ? **Operating Systems** :Windows 98/ 2000/ XP/Windows 7/Windows8/Windows10
- ? **Software application** : Microsoft Office 2007,2010,2013
- ? **Messaging** : Lotus notes 6.5, 5.5, 8.5, Micro-Soft out Look-07,10,13,16

Hardware & Software tools worked on

- ✚ Sun Solaris Server, Alcatel- Lucent B10& B11 software(ALU BTS-9100,ALU BSC-9130)
- ✚ WinBSC-BSXMZX70,Motorola BTS (Horizon II Macro, MCell-6 etc.)
- ✚ GSM/2.5G Motorola OMC-R (Datagen, OSI, Codex).
- ✚ ZTE V2-OMCR,V6-OMCR,Net Numen,/MINUS(2G,3G)
- ✚ Issue Tracking Tool: TTI Telecom's NetKt Remedy& Huawei ACCROSS-SDM
- ✚ Huawei EMS & NMSTools-MOS 5100, MOS 7100, M2000,WFM, SDM,Secure CRT, Putty ,LMT
- ✚ CITRIX-Xen App , CLOUD VM& Single Cloud maintenance.
- ✚ AT&T Tools- Geolink Coverage, Torch, HLR OPS, Quantum KPI, Metcalf,Nokia MMSC, SMSC-Putty, RMAP,IRIS-Tektronix
- ✚ ALU/Nokia Enode B-9926,9214 ,Nokia Siemens BTS.ALU-SAM,Nokia-Netact
- ✚ CCNA-Routing+Switching Certified, ITIL V4 Process and Compliance Engineering Certified
- ✚ Ericsson RBS-3000 and 6000 series,OSSRC,OCATS,ENM tool,BO.
- ✚ Award Solutions- LTE& VOLTE Bronze certified
- ✚ Wireshark and iPerf(log and Network KPI analysis)
- ✚ RF/ RAN test equipment, X-CAL, HPALM

Professional Credentials:-

- ? **B.Tech** - (2005-2009) in Electronics & Telecommunication Engineering from Biju Patnaik University Of Technology (BPUT), ORISSA with 6.54 CGPA(1st Division).
- ? **M.B.A**-(2017-2019) in Information System Management from SMU(Sikkim Manipal University of Technology,Manipal with 7.3 CGPA.

Personal Profile:-

Name	:Amitabh Nayak
Date of Birth	:5th May, 1987
Sex	:Male
Marital Status	:Married
Nationality	:Indian
Languages known	:English, Hindi, Oriya.
