PROFESSIONAL SUMMARY

Software Engineer with 3.5 years of experience in developing and deploying scalable web applications, with a strong dedication to both overcoming challenges and delivering high-quality software solutions.

WORK EXPERIENCE

Software Engineer

Techinfini Solutions Pvt Ltd, Indore

📅 Jul 2021 – Aug 2024

- **Designed, built, and configured** scalable microservices-based applications using Node.js, ensuring integration with third-party services and optimizing performance by 20%.
- **Participated in monitoring and debugging production environments**, diagnosing issues in real-time, and improving system reliability. Utilized **Git** for source code version control to maintain code quality and consistency across projects.
- **Collaborated with cross-functional teams in agile environments** to translate business requirements into technical solutions, ensuring **seamless integration of RESTful APIs** and delivering high-quality projects with exceptional user experience.
- **Implemented robust security measures, including authentication, authorization, encryption, and database security** best practices, ensuring secure access control and protection of sensitive data across the stack.
- Contributed to the migration of legacy applications to modern, scalable server-side applications using Node.js, while implementing **performance tuning and system optimization strategies**.

Web Developer

HypeDigitally, Indore

📅 Nov 2020 – Apr 2021

- Built reusable code and components for future use, speeding up the development process by 15%.
- Integrated third-party APIs for **payment** processing, enhancing the platform's functionality.
- Collaborated effectively in Agile teams, actively participating in sprint planning, and daily stand-ups.
- Write and maintain technical documentation, ensuring that development processes and systems are well documented.
- Work closely with senior developers to learn and implement best practices in software development and system design.

EDUCATION

Bachelor of Engineering in Computer Science

Vikrant Institute of Technology & Management (RGPV), Indore

📅 Dec 2018

Higher Secondary

MP Board of Secondary Education, Bhopal

📅 Mar 2012

SKILLS

JavaScript Node.js React.js Express
MongoDB SQL Git Docker AWS
Shopify HTML CSS Communication
Team Collaboration Learning Attitude

PROJECTS

TrendPack

TrendPack is an ecommerce platform, specialized in designing and manufacturing custom box packaging solutions

- Developed scalable restful APIs for product ordering, customer interaction, and order management using Node.js

Technology Used : Node.js, Express.js, MongoDB, Shopify, React.js

PMP

PMP is custom project management portal, used to manage and track the project progress

- Developed an **automatic assignment feature** that reads email and assigns tasks according to task type, priority, and workload to the appropriate team member

Technology Used : Node.js, Express.js, MongoDB, React.js

Karix SMS and WhatsApp Notify

It is a comprehensive notification app that facilitates customer communication across channels such as WhatsApp and SMS

- Developed a robust and scalable app that helps convert the **abandoned checkouts** into actual business by 30%

Technology Used : Node.js, Express.js, MySQL, Shopify, React.js
