- **Programming:** Java, Kotlin, Dart, Swift
- **Mobile Tech:** Android (Jetpack, Compose), iOS, Flutter
- **Tools:** Git, JIRA

Experience

Shiprocket Private Limited

2019 – present

Senior Manager - Mobile

Gurgaon, Haryana

- Managed and developed six mobile applications using native (Java, Kotlin, Swift) and hybrid (Flutter) technologies, ensuring scalability and user satisfaction.
- Led cross-functional teams of 10-15 engineers, driving agile execution, maintaining code quality, and delivering projects on time.
- Re-architected high-growth apps by upgrading tech stacks to align with Google and Apple standards, improving performance and user experience with declarative UI patterns.
- Integrated third-party tools (Firebase, Clevertap, Intercom, Freshworks, payment gateways) to enhance analytics, marketing, and app quality.
- Managed a Laravel and Angular-based support module with a 5-member team, ensuring seamless collaboration and rigorous code reviews.

Eazydiner Private Limited

2017 – 2019

Senior Software Engineer

Gurgaon, Haryana

- Contributed to the development of the consumer-facing restaurant reservation app, enhancing user experience and engagement across various dining establishments.
- Designed and implemented key features for seamless table bookings, promotions, and discounts to boost app adoption.
- Led the development of Livetable, a B2B restaurant management system with real-time table occupancy tracking and customer communication tools.
- Enhanced restaurant operations by integrating analytics, marketing capabilities, and customer engagement features.

Inox apps , Tenthorbit , Wallmantra

2013 – 2017

Senior Software Engineer(Early Career Experience)

Noida, U.P.

- Developed and maintained mobile applications across diverse industries, including social media (Frankly.me), e-commerce (WallMantra), and utility apps (Cool Fonts Keyboard, Lock Screen Apps).
- Played a key role in designing, coding, and implementing features for applications like Gingr, MapMyWheels, and Drawing Apps, ensuring project success.
- Collaborated with cross-functional teams (design, marketing) to deliver high-quality, user-focused mobile solutions.

Projects

Shiprocket And Shiprocket Quick Apps | *Android, iOS, Kotlin, Swift, Firebase, Intercom, Team management*

Shiprocket's B2B mobile application helps sellers manage shipments through multiple courier partners. Quick commerce Delivery App that enables user to send packages within city in just 15 min delivery.

- Led Android and iOS teams from concept to deployment of the app.
- Upgraded tech stack to Kotlin, Compose, SwiftUI, and other modern technologies for improved performance and compliance with Google and Apple guidelines.
