Hyd,IN

Full stack Developer

revach

MERN Stack

Working in an Technology and Management Consulting Group with a rapid pace development and innovative solutions for demanding projects. I work as a full-stack developer here, responsible for building, deploying and maintaining internal web applications.

- Define code architecture decisions to support high-performance products
- Developing and designing front end web architecture
- Building interactive consumer data from multiple systems
- Translate wireframes and PSD Designs into functional web applications
- Developing well-functioning databases and applications
- Conduct and participate in project planning & scheduling and design discussions
- Test software to ensure efficiency
- Address and improve any technical issues

React Native,Flutter (Ios,Android) Developer

Build pixel-perfect, buttery smooth UIs across both mobile platforms.

Leverage native APIs for deep integrations with both platforms.

Diagnose and fix bugs and performance bottlenecks for performance that feels native.

Reach out to the open source community to encourage and help implement mission-critical software fixes—React Native mov

Transition existing React web apps to React Native.
