EDUCATION

Bachlor in computer science

Techno India University
2021-2025

Higher Secondary

Delhi Public School, Gaya
2018-2020

Secondary

Al-Momin Academy, Gaya
2017-2018

SKILLS

Programming

languages-

C,C++,Java,Python

Data Structure & Algorithms

Database(MySQL)

Operating System(Linux)

OOPS

Computer Networking

Html,CSS

Machine Learning

INTRODUCTION

I am pursuing B.Tech in computer science. Currently, i am in fourth year at Techno India University , Kolkata. I am a Tech enthusiast and a good problem solver, quick learner and agile. I can easily learn new technologies and can adapt in a new working environment. I am self motivated and responsible. I can work on any task assigned to me with less supervision.

PROJECT

Terrain Detection Using Deep Learning

In this project I am using Python,CNN and YOLO to detect different landscape and it's quality.Here I have used Remote Sensor ,Exteroceptive Sensor ,GIS for image collection.

Ultra Walk

This smart shoe uses an Arduino Uno, ultrasonic sensor, and feedback mechanism to help the visually impaired navigate safely by detecting obstacles and providing alerts.

Fuse Flora

Developed a dynamic e-commerce platform for plant enthusiasts, featuring a marketplace to buy plants, flowers, and gardening tools, as well as a platform for users to sell their own products. Integrated an innovative e-plant doctor to diagnose and treat plant diseases.
