Location: Bengaluru

Experienced **Oracle APEX** and **PL/SQL** developer with **4.10** years of expertise in Database Management Skills. Proficient in JavaScript, HTML, CSS, SQL, and PL/SQL. Skilled in Full Stack Development with a trackrecord of successful project delivery. Seeking a challenging role with a world-leading technology company that offers long-term stability, exciting projects, and technical progression. A result-driven, customer-focused, and analytical Software Engineer who can think “out of the box”. Seeking the position of an Oracle APEX and PL/SQL developer in an organization where my technical efficiency and commitment will contribute towards the organizational growth and personal growth as well.

Professional Summary

- Around 4.10 years of experience in Application Development using Oracle SQL, PL/SQL, and Developer **Oracle Application Express (APEX, versions: 19.2, 20.1, 20.2, 21.1, 21.2, 22.1, 22.2, 23.1, 23.2, 24.1)**.
- Proficiency in analysis, design, development, testing, implementation, and maintenance of applications in Oracle Application Express (APEX) and client/server configurations.
- Excellent conceptual knowledge of Oracle 10g/11g, PL/SQL and SQL.
- Experience in Database design using Normalization and E/R Diagrams.
- Designing and implementing database structures, including tables, indexes, and views
- Developing and optimizing PL/SQL code for data manipulation, validation, and reporting
- Collaborating with cross-functional development teams to gather business requirements and translate them into efficient business intelligence solutions.
- Performance tuning and query optimization to enhance database performance
- Troubleshooting and resolving database-related issues and errors
- Rich experience in writing SQL queries, Views, PL/SQL procedures, functions, packages, triggers, Dynamic SQL.
- Developing Excel, Word, PDF, XML Templates and Reports in AOP.
- Good in creating users and maintaining their roles and responsibilities.
- Experience in writing technical design documents and developing unit test documents.
- Hands-on experience with Oracle APEX 19.2(Oracle Application Express) and above.
- Strong interpersonal skills, ability to interact with people at all levels. Good communication and presentation skills.

Experience

Project 1 **GSC BIMS**, Oracle GSC (February 2024 – Present)

BIMS - the system that is simple, single and impactful from a business point of view. Earlier systems are on diverse platforms, heavily customized and not easy to maintain/upgrade. The system had to be on a single access / platform / technology that enables easy maintainability, debugging and upgrade apart from being able to address changes to organizational structure and dynamic/changing reporting requirements.

Responsibilities

- Used Interactive Grid, Interactive Reports, Classic Reports for Reporting
- Used PL/SQL and REST Services for integrating data.
- Written Database queries in SQL and PL/SQL.
- Implemented User Access Control by using Application Items and APEX Computations.
- UAT Support and production support

Project 2 **HDFC -LACS**, Oracle GSC (Jul 2023 – January 2024)

HDFC was among the first financial institutions in India to receive an in-principal approval from the RBI to set up a bank in the private sector. The LACS module in HDFC Bank was previously developed on Oracle Forms and client wished to migrate the features to Oracle APEX. Hence a specific solution is provided to achieve the same.

Responsibilities

- Creating APEX pages, apex processes and dynamic actions.
- Developed Stored Procedures, Functions, Packages and SQL Scripts using PL/SQL
- Developed SQL and PL/SQL scripts to transfer tables across the schemas and databases.
- Collaborated with clients to create visually appealing and user-friendly interfaces, meeting their unique business requirements.

Project 3 **Customer Success Dashboard**, Oracle University (Apr 2022 – Jul 2023)

This is an Oracle University Project which is built for the purpose of analyzing the subscriptions and learning paths that the customers have taken for a year and the expiration date. And to know about the activation and consumption details of the subscription. It also gives the information about who is the Manager and Learning Specialist for that learning.

Responsibilities

- Creating APEX pages, apex processes and dynamic actions.
- Worked on PL/SQL packages for bug fixing.
- Writing SQL Queries, PL/SQL Functions, procedures, triggers for developing Apex
- Supported APEX applications and conducted performance tuning for PLSQL.

Project 4 **Innovation Portal**, Oracle GSC (Internal) (Dec 2019 – Apr 2022)

Built on Oracle Application Express, the Innovation Portal is indeed feature rich. The only place where you can get IP Assets from across Domains, highly qualified consulting assets (Gold, Silver, and so on) from across areas that can be readily made use of. Flexible design that makes the addition of new Campaigns, Domains, Sub Domains, etc. Intuitive Home page with provision to easily promote campaigns and related assets.

Responsibilities

- Responsible for the delivery of the APEX based Solution.
- Used different APEX components to implement various functionalities.
- Used Interactive Grid, Interactive Reports, Classic Reports for Reporting.
- Generated REST APIs in ORDS.
- UAT Support and production support

Project 5 **Delivery Central Tools**, Oracle GSC (Internal) (Dec 2019 – Apr 2022)

Perform your project provisioning activities and access all TCM libraries with solution sets, solution, blueprints and more. See how you can leverage TCM gold environments in your project to improve your customer workshops and learn how you can contribute to TCM with harvesting your projects.

Responsibilities:

- Used Interactive Grid, Interactive Reports, Classic Reports for Reporting
- Used PL/SQL and REST Services for integrating data.
- Written Database queries in SQL and PL/SQL.
- Implemented User Access Control by using Application Items and APEX Computations.
- UAT Support and production support

Education

August 2015 – June 2019 **Bachelor of Engineering**, Cambridge Institute of Technology
Visvesvaraya Technological University, Belgaum
CGPA – 7.89

Certifications

1. **Oracle APEX** Cloud Developer Specialist
2. Oracle Cloud Infrastructure 2022 Certified Foundations Associate
3. Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate.
4. CDT developing Applications for the Java EE 7 Platform EMP LVC.
5. Software Development in Python: A Practical approach

Awards & Recognition

1. Regional finalist in **MADHACKS 2024** for **The Predictive Queens.**
2. Winner of **Techackathon 2024** for the idea **SABDAM.**
3. Secured 3rd place in **MADHACKS 2023**(Global Level Hackathon)organized by Oracle for **SABDAM.**
4. The idea to help farmers to tackle the crop related issues got shortlisted in **Oracle Accenture Mastermind** challenge.
5. Received **FY23 Q3 Delivery Ace award**
