CAREER OBJECTIVE

Looking for a challenging role in a reputed organization to utilize my technical and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector. I am a quick learner and committed to continuing professional development.

PROFESSIONAL EXPERIENCE

STAFFINGGO

Software Engineer

Bangalore, Karnataka

June'24 - Present

- Designed a Windows application in .NET Framework 4.8 for bulk payslip downloads, automating the retrieval from S3 and the creation of zip files for each request.
- Developed and implemented a feature using iText PDF to attach digital signatures and seals to documents, followed by seamless server uploads.
- Executed document merging processes with iText PDF, ensuring efficient uploads to the server post-merge.
- Integrated EY API for streamlined invoice processing, enhancing the efficiency and accuracy of financial operations.
- Utilized TX Text Control for document services, creating tables in various formats to meet specific requirements.

THE KNOWLEDGE ACADEMY

Web Developer

Bangalore, Karnataka

Sept'23 - June'24

- Contributed to the development of a Global HR Portal in Laravel 10, focusing on user role and permissions management based on branch and department hierarchies.
- Developed a leave portal with features like ticket raising, employee management, and leave calculations, improving HR processes and user experience.
- Enhanced code management and user experience using AJAX, jQuery, and eloquent relationships within Laravel, ensuring efficient data handling.
- Developed an E-Signature feature using BoldSign, streamlining document signing processes and improving workflow efficiency.

YUG INTERACTIVE

Web Developer

Rajkot, Gujarat

Aug'21 - Sept'22

- Designed and developed a RESTful API using .NET Core and Entity Framework Core for CRUD operations, incorporating JWT authentication and role-based access control for security.
- Contributed to a full-stack e-commerce website, integrating payment gateways and implementing user authentication and authorization with a .NET Core backend and React frontend.
- Managed product inventory using a relational database, ensuring accurate stock management for the e-commerce platform.
- Utilized GitHub for version control, handling branches, pull requests, and conducting code reviews for collaborative development.
