

GULAB SINGH ARORA

Senior Cloud Database Administrator | Cloud DBA | AWS | GCP

✉ gulab.arora@gmail.com | 📞 +91-9673499666

📍 India | 🌐 Open to Global Opportunities

PROFESSIONAL SUMMARY

Senior Cloud Database Administrator with **18+ years of experience** in managing, migrating, and optimizing enterprise databases across **Oracle, MySQL, PostgreSQL, and SQL Server** environments. Strong hands-on expertise in **AWS RDS, Amazon Aurora, GCP Cloud SQL, AlloyDB**, and cloud-native **Backup & Disaster Recovery (DR)** solutions. Proven experience in **cloud migrations, high availability, performance tuning, automation (Terraform/Ansible), cost optimization, and security compliance**. Adept at supporting **mission-critical production systems** and collaborating with DevOps, SRE, and application teams.

KEY SKILLS

AWS RDS, GCP Cloud SQL, AlloyDB,, Oracle DBA, MySQL DBA, PostgreSQL DBA, SQL Server DBA, Cloud Migration, Database Migration, DR Architecture, Backup & Recovery, Performance Tuning, High Availability, Multi-AZ, Read Replicas, PITR, RPO RTO, Terraform, Ansible, Automation, IAM, KMS, Datadog, Monitoring, Capacity Planning, Production Support

CORE COMPETENCIES

Cloud & Database Platforms

- AWS RDS (MySQL, PostgreSQL, Oracle), Amazon Aurora
- GCP Cloud SQL, AlloyDB, BigQuery
- Oracle, MySQL, PostgreSQL, SQL Server (On-Prem & Cloud)
- MongoDB (Replica Sets, Sharding)

High Availability & Disaster Recovery

- Multi-AZ and cross-region DR architectures
- Read replicas, automated failover, and replication

- Backup & recovery (PITR), DR drills, RPO/RTO validation

Database Migration & Modernization

- On-prem to AWS / GCP cloud migrations
- Homogeneous & heterogeneous migrations
- AWS DMS, RMAN, Export/Import, Logical Replication, GoldenGate

Performance Tuning & Optimization

- AWS RDS Performance Insights, GCP Query Insights
- SQL tuning, indexing, partitioning, capacity planning
- Workload analysis and optimization

Security & Compliance

- IAM-based access control and least-privilege model
- Encryption using KMS / CloudHSM
- Audit logging and compliance enforcement

Automation & DevOps

- Infrastructure as Code using Terraform & Ansible
- Shell scripting, CI/CD integration
- Automated monitoring and alerting

Monitoring & Observability

- Datadog, GCP Cloud Monitoring
- Proactive alerting, performance trend analysis

PROFESSIONAL EXPERIENCE

Senior Cloud Database Administrator

Nityo Infotech Services PTE LTD (Payroll Company) – Singapore

Client: FairPrice Singapore | *May 2022 – Present*

- Designed and implemented **backup and disaster recovery solutions** for **GCP Cloud SQL and AlloyDB**, conducting regular DR drills and validating **RPO/RTO**.
- Administered **AWS RDS** (MySQL, PostgreSQL, Oracle) including **Multi-AZ setup, read replicas, automated patching, and storage scaling**.
- Automated database provisioning, backup validation, and DR testing using **Terraform and Ansible**, reducing manual effort and operational risk.
- Performed **performance tuning** using **RDS Performance Insights, Cloud SQL Insights, Query Store, and Datadog**.

- Optimized SQL using **SQL Trace, TKPROF, EXPLAIN PLAN, Oracle hints, indexing, and partitioning**.
 - Implemented **MySQL HA** (master-slave, multi-master) with automated backups using **XtraBackup and LVM snapshots**.
 - Led **cost optimization initiatives** including rightsizing, capacity planning, storage autoscaling, and removal of unused resources on AWS and GCP.
 - Implemented **ProxySQL and Cloud SQL Auth Proxy** for high availability, connection pooling, and load balancing.
 - Enforced **IAM-based security, audit policies, and compliance controls**.
 - Prepared **runbooks and SOPs** for backup, DR, performance tuning, and operations.
 - Provided **24x7 production support**, on-call rotation, and maintenance window activities.
-

Database Migration Lead – Cloud Modernization Practice

IBM India Pvt Ltd | Oct 2015 – May 2022

- Led large-scale **database migration and cloud modernization projects** from on-prem **Oracle, MySQL, PostgreSQL** to **AWS RDS and GCP Cloud SQL**.
 - Designed and executed migration strategies using **AWS DMS, RMAN, export/import, and logical replication**.
 - Defined enterprise standards for **backup, restore, high availability, patching, and capacity planning**.
 - Delivered multiple cloud migration projects meeting SLA and compliance requirements.
 - Performed **schema design, schema optimization, and SQL performance tuning**.
 - Implemented **database synchronization** using materialized views and replication techniques.
-

Senior Database Administrator

Betsol Software India Pvt Ltd – Pune | Aug 2013 – Oct 2015

- Executed cross-platform database migrations including **PostgreSQL to Oracle**.
 - Designed and optimized database schemas for product-based applications.
 - Implemented **RMAN backup and recovery** and disaster recovery solutions.
 - Redesigned table partitioning strategies including interval and virtual partitions.
 - Developed automated scripts for proactive monitoring and health checks.
 - Actively involved in **SQL tuning, deployment, and testing**.
-

Database Administrator

Fundtech India Pvt Ltd | Jul 2012 – Aug 2013

- Designed database sizing for large production and development systems.
 - Developed and documented **backup and recovery strategies using RMAN**.
 - Performed Oracle performance tuning including **SGA optimization and I/O balancing**.
-

EARLIER EXPERIENCE

- **Mphasis (HP Company)** – Senior DBA Consultant | 2009 – 2012
 - **KPIT Cummins Infosystems Ltd** – Senior Software Engineer | 2007 – 2009
 - **Mphasis (EDS Company)** – Senior Software Engineer | 2006 – 2007
 - **LogiPro Software Pvt Ltd** – Software Programmer | 2005
-

EDUCATION

- Post Graduate Diploma in Information Technology – AMU, Chennai
 - CDAC – Diploma in Advanced Computing (ACTS)
 - Bachelor of Commerce – Vikram University, Ujjain
-

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Google Associate Cloud Engineer
- PMP – Project Management Professional
- ITIL® Foundation Certificate
- AWS Database Offerings
