EDUCATION

- **Ramaiah Institute Of Technology** Bangalore, India
B.E. in Information Science and Engineering 2024
- **Army Public School, Bolarum** Secunderabad, India
CBSE - All India Senior School Certificate Examination (Grade XII) 94.3%, 2020

SKILLS SUMMARY

- **Languages** Python, SQL, C, JavaScript, HTML, CSS, Java
- **Tools** MS Excel, VS Code, GitHub, Git, PowerBI, Firebase, JIRA, MongoDB, Docker, Neo4j, ELK/Elastic Stack, AWS, Unity
- **Frameworks** Django, Flask, FastAPI, React, Linux, NodeJS
- **AI LangChain**, LangGraph, OpenAI API, Gemini, Pandas, Matplotlib, NumPy, HuggingFace, NLTK, Autogen, ComfyUI, Stable Diffusion

WORK EXPERIENCE

- **Indian Institute Of Technology, Delhi** May 2024 - Current
Research Associate III
 - Designed and developed a Retrieval-Augmented Generation (RAG) application for querying and analyzing **PDFs, Docx, CSV, Excel, and SQL** efficiently.
 - Successfully implemented the solution on the platform: iknow.carnotresearch.com.
 - Created promotional content, including **reels**, and contributed to the **marketing strategy** to enhance product visibility and engagement.
- **Indian Institute Of Technology, Delhi** Jan 2024 - May 2024
Research Intern
 - Developed **cr-nlp**, a custom NLP library to streamline natural language processing tasks.
 - Hosted NLP-related functions on **Firebase** for scalable and efficient deployment.
 - Showcased work on GitHub: IITD-work.
- **WhatAnAIdea!** March 2024 - May 2024
Generative AI Intern
 - Developed **Stable Diffusion workflows** for applications in **interior design** and **product design**.
 - Trained **Diffusion Models and LORAs** to enhance efficiency and performance of generative AI tasks.
 - Designed and implemented the **WhatAnAIdea internal testing tool** to streamline testing processes.
- **Xenvis** March 2023 - July 2023
Technology Research Intern
 - Developed **object recognition solutions** in **AR/VR** environments using **Unity** and the **Vuforia library**.
 - Created detailed **3D models** leveraging **photogrammetry techniques** for high-quality visual assets.
 - Designed and built **Android applications** with **Android Studio**, integrating AR/VR functionalities.

PROJECTS

- **SoftAI** Virtual Software Development Company
AI-Driven Automation 2024
 - Developed a website using **Autogen, LangChain**, and the **OpenAI API** to dynamically generate customized landing pages.
 - Implemented **multi-agent collaboration workflows** for intelligent content generation and layout optimization.
 - Delivered a scalable solution to automate landing page creation, reducing manual effort.

ACHIEVEMENTS

- **Runner-Up in MSRIT Ideathon 2.0:** Recognized for innovative **Ayurveda-based app design**.
- **Lead Actor in Short Film:** Played the **male lead** in **Dadi Driver (2024)**, a short film produced by students of **Srishti Institute of Design**.
