Motivated Computer Science student, With a strong desire to push the boundaries of what is possible, I aim to find opportunities where I can make a meaningful impact and contribute to cutting-edge projects, while continuously learning and growing as a professional.

## EDUCATION

|                                                   |                   |
|---------------------------------------------------|-------------------|
| <b>SJB Institute of Technology</b>                | Bengaluru, 560060 |
| BE   Computer Science and Engineering – CGPA -7.2 | 2021-2024         |
| <b>Govt Polytechnic Tumkur</b>                    | Tumkur, 572103    |
| Diploma – Percentage – 70                         | 2020              |
| <b>Govt High School Vaddagere</b>                 | Vaddagere ,572129 |
| X – Percentage – 82                               | 2017              |

## PROJECTS

### Loan Amount Prediction.

- Developed a Machine Learning model using **python and scikit-learn** to predict the loan amount based on cibil score and customer data
- Utilized various regression algorithms to improve accuracy(>**90%**)

### Deepfake Creation and Detection using CNN and ResNET.

- Developed a comprehensive system for the creation and detection of deepfake videos, images utilizing CNN and ResNet.
- This project addresses the growing concern over the authenticity of digital media by providing both the generation and identification mechanisms for deepfake using the python programming language.
- Using the python programming language libraries and frameworks that are tensorflow, mtcnn, OpenCV, efficientNet, flask, dlib, pandas, scikit-learn.
- The algorithms are used ResNet, CNN, Haar Cascade and using a tool VScode

## TECHNICAL SKILLS

- Languages :** Python, Java, C++, SQL, HTML/CSS
- Fundamental skills:** DBMS, OOPS, Data Structures, OS, Linux.

## ACHIEVEMENTS

- Certificate:1)**ETHNOTECH ACADEMIC SOLUTIONS Training program on **Web Programming-**2022.
- 2) **PYTHON** bootcamp from Zero to Hero at **Udemy**-2024
- Internship:** ML internship at parvaM software solutions-2023

## SOFT SKILLS

- Adaptability
- Teamwork and collaboration
- Time management
- Learning mindset
