Professional Summary

- Laboratory Manager with 3 years of experience in the medical domain and a 4-month AI internship at Suvidha Foundation. Skilled in Python, SQL, machine learning, and data visualization tools like Tableau and Power BI. Experienced in optimizing processes, problem-solving, and leveraging data for actionable insights.

Skills

- **Programming:** Python, SQL, SAS
- **Data Science Techniques:** Exploratory Data Analysis, Statistical Modeling, Machine Learning, Time Series Analysis, Deep Learning, Natural Language Processing (NLP)
- **Python Libraries:** NumPy, Pandas, SciPy, Scikit-Learn, Seaborn, TensorFlow, Keras, NLTK
- **Data Visualization:** Matplotlib, Seaborn, Tableau, PowerBI
- **Tools:** Jupyter Notebook, Google Colab, MySQL, SQL Server, Excel

Education

- **Master of Business Administration (MBA)**, Aditya Engineering College (Expected 2026)
- **Post Graduate Program in Data Science Engineering**, Great Lakes Executive Learning (2023)
- **Bachelor of Science (B.Sc)**, BAMU University (2023)

Professional Experience

Artificial Intelligence Intern

July 2024 - October 2024

Suvidha Foundation (Remote)

- Digital Summarizer Project: Developed text summarization model using NLP and deep learning
- Improved model accuracy by 15% through comprehensive dataset curation
- Reduced text processing time by 20% with advanced machine learning techniques
- Tools: Python, TensorFlow, Keras, Pandas, NumPy, NLTK, Jupyter Notebook

Electricity Price Forecasting for IT-Driven Utility Management

- Built a machine learning model to forecast electricity prices based on energy demand and weather data, achieving a 90% training accuracy with KNN and hyperparameter tuning
- This project supports IT-driven resource management for utility companies, ensuring efficient pricing models
- Tools: Python, Pandas, NumPy, Scikit-Learn, XGBoost, Seaborn, Matplotlib

Online Shopping Process Analytics for Healthcare E-Commerce

- Analyzed healthcare e-commerce shopping behavior over a decade, leading to a 15% improvement in inventory management and a 10% increase in sales
- Skills: SQL Queries, Joins, Sub-Queries, Windows Functions
- Tools: MySQL Workbench

Certifications

- Tableau Certification (Great Learning)
- PowerBI Certification (Great Learning)
- SQL (Intermediate) (HackerRank)
- Artificial Intelligence (Great Learning)
- Project Management (Great Learning)
- Analytics on SAS (Great Learning)

Hackathons

- Vehicle Insurance Prediction Hackathon, Great Learning (Rank 3)
- Shinkansen Travel Experience Hackathon, Great Learning (Rank 6)
- Student Performance Analysis Hackathon, Great Learning (Rank 4)
- AI-Based Healthcare Hackathon, Great Learning (Rank 5)
