

Pujitha k

snowflake Developer

Pujithatej@gmail.com

PH:9494628077

- Possess 4+ years of experience in IT Industry as Software Engineer in Stack Nous Technologies.
- Possess over 4 +years of experience in SQL, AWS and Snowflake Developer.

Experience

Stack Nous Technologies (Aug 2020 –Present)

PROJECT DETAILS:

1. Snowflake Data Migration

♦Project Name: Alt-Data

Team Size: 08

Duration: Aug 2021– Till Date

Role: Snowflake Data Engineer

Skill Set: Snowflake, Snow SQL, Python, Informatica and Aws.

Components

Alt-data is a data migration project for migrating the data from various technologies to Snowflake. The major aim of this project is to reduce the dependency on various technologies and improve the throughput of the data processing. As a part of data migration 210 tables are migrated to Snowflake from various data stores. All these existing data stores are built using various technologies like Informatica BDM, Cloud era, and EMR Hive. Once data is available in Snowflake, downstream visualize it using Tableau as a reporting tool.

Responsibilities Highlights:

- ❖ Creating tables and views on snowflake as per the business needs.
- ❖ Data moved from SQL Server ---> AWS ---> snowflake.
- ❖ Worked on Bulk Loading concept.
- ❖ Created Snow pipe for continuous data loading
- ❖ Created internal and external stages and transformed data during load
- ❖ Used FLATTEN table function to produce lateral view of VARIENT.
- ❖ Worked on the data sharing concepts with consumers for Reports and secure, materialized views.
- ❖ Worked on queries for the business logic.
- ❖ Involved in the power BI connection with Snowflake.
- ❖ Writing the test cases based on requirements.
- ❖ Execute the test cases manually and raised the defects.
- ❖ Preparation and maintenance of Test Data.
- ❖ Defect reporting and Analyzing Result.
- ❖ Involved in functional testing, Regression testing and Smoke testing

Project 2 : Manual Testing Project

Client Name: Manulife

Manulife Team Size: 12

Duration: Aug 2020 to July 2021

Project Type: Insurance

Description: This project has the facility to take insurance policy through online. This gives all the information about insurance like policies, agents, offices and glossary of insurance terminology, online services to some of the policies, information regarding expiry, renewal, status inquiry, chatting with the experts. This Project has administration module, the company has the facility to download all the filled up personal forms and verify the forms for acceptance, further verification, rejection, if premium is paid the policy can be allotted.

Roles and Responsibilities

- Reviewing test scenarios and test cases.
- Generated test cases as per Use cases defined in product requirement document.
- Involved in Functional Testing, Re-Testing, Regression Testing.
- Involved in writing SQL queries and performing Database testing
- Creation of bugs, Tracking and Verification of fixed bugs and subsequently closing them if they passed the test case.
- Reporting status of testing progress, issues to team lead on a weekly basis.

ACADEMIC RECORD

 SV University (AP) Bachelor of Commerce.

B. Com from SDHR Degree and PG College.

PERSONAL DOSSIER

Name: Pujithak

DOB :14/Jun/1999

Nationality: Indian

Phone No: 9494628077

Address: Kaveri Layout, Tulasi theatre toad, Marathahalli, Bangalore, Karnataka, 560037.

DECLARATION:

I hereby declare that the information furnished above is true to the best of my knowledge.
