

Name: Puneet Kumar Tripathi

Email: tripathipuneetkumar@gmail.com

Phone: +91-9440831976

LinkedIn: <https://www.linkedin.com/in/puneet-kumar-tripathi-b75ba8a8>

PROFESSIONAL SUMMARY:

- Having 8+ Years of experience in developing applications using **Python3 and AWS** as a Software Engineer.
- Experience in **Object-Oriented Programming** with **Python3**.
- Standardized **ETL** processes and tools to automate data extraction and manual reporting.
- Experience in data analysis using **Python3** and **Pandas**.
- Experience in **Web Scraping** using python libraries **Beautiful Soup, requests, urllib3**.
- Experience in working with HTTP protocols and handling different data formats **JSON, XML, CSV**.
- Developed Web application in Python using **Django Framework and Flask Framework**.
- Experience in working with **Distributed system programming using python**.
- Good understanding of **Machine Learning** libraries OpenCV, Matplotlib etc.
- Developed back-end features and able to integrate with multiple Data Sources and Databases.
- Experience in **REST API** and exposure to REST API frameworks.
- Good understanding of front-end technologies such as **JavaScript, HTML5, CSS3**.
- Having good working knowledge of **Data Structures and Algorithms**.

TECHNICAL SKILLS:

Languages: Python, SQL, JavaScript.

Python Web Frameworks Technologies: Django, Flask, Django Rest Framework (DRF).

Web Technologies: HTML, JavaScript, Bootstrap, CSS.

Databases: PostgreSQL, MySQL, Cassandra, MongoDB.

Operating Systems: Windows, Linux.

SDLC Methodologies: Agile and Scrum.

PROFESSIONAL EXPERIENCE:

Company: Hitachi Vantara

March 2023 – Present

Role: Software Development Engineer - Specialist (Python)

Responsibilities:

- Worked on creating **REST API** using python3, Django Rest framework, Git, Jira.
- Experience in creating **ETL** scripts using **PySpark**, which uses **distributed computing** models to process data.
- Created complex reports using Python data analysis ecosystem and **Pandas**.
- Used the **Beautiful Soup** library to extract desired data from a given URL (HTML and XML document) in an automated way.
- Experience of making complex queries using PostgreSQL databases.
- Experience in creating reports using python3 scripts, pandas, and PostgreSQL databases.
- Tools & Technologies used: Python3, PostgreSQL, Django Framework, PySpark, Git, Jira, Jenkins.

Environment: Python3, PostgreSQL, Django Framework, PySpark, Git, Jira, Jenkins.

Company: Cryscloud Pvt Ltd (Roche, Genentech)

April 2020 - Jan 2023

Role: Technical Lead, Senior Software Engineer

Responsibilities:

- Worked on creating REST API using python3, Flask framework, Git, Jira.
- Experience on creating **ETL** scripts using distributed processing engine that allows to process data efficiently in a distributed fashion.
- Experience of making complex queries using PostgreSQL databases.
- Worked on creating AWS API Gateway using AWS Lambda.

- Worked on web scraping to collect product details, prices and customer reviews using **Beautiful Soup** library.
- Worked on integration of third-party API Google Drive using pyDrive Module.
- Experience on AWS Lambda, S3, Query API for EC2 and Config services using Boto3.
- Tools & Technologies used: Python3, PostgreSQL, Flask Framework, PySpark, AWS, Git, Jira.

Environment: Python3, REST API, PostgreSQL, Flask Framework, PySpark, AWS, Git, Jira.

Company: Vnaad Technologies LLP

July 2019 - March 2020

Role: Software Engineer

Responsibilities:

- Experience on creating REST API in social network platforms (One-Page Spotlight) using Python.
- Experience in python libraries: threading, pickle, file handling, functional programming, Debugging like pdb, Development tools like unittest, re Module.
- Worked on Object-Oriented python programming, class, Objects, Inheritance, Method overriding, python lambda.
- Worked on NoSQL databases like Cassandra, Elastic Search.
- Exposure to caching mechanism Redis and queue service RabbitMQ.
- Maintained Git workflow for version control.
- Experienced on Amazon S3 bucket, Elastic Transcoder, and other AWS services.
- Worked on Docker based web development and good knowledge of docker commands.

Environment: python3, Cassandra, Elasticsearch, AWS services.

Company: PipingRock India Pvt Ltd

May 2018 - June 2019

Role: Software Engineer

Responsibilities:

- Working with the backend team for developing different sections of Application and integrations of Bazaar voice and other API integration in application.
- Experience in building docker based web application development.
- Fixing bugs and doing modifications as per requirement.
- Queried MySQL database queries from PHP using PHP-MySQL Connector and MySQL DB package to retrieve information.
- Tools & Technologies used: Python3, PHP5, MySQL, JavaScript, HTML5, CSS3, Git, Bitbucket.

Environment: python3, PHP5, MySQL, JavaScript, Git, Bitbucket, REST API.

Company: KelltonTech Solutions

June 2016 - April 2018

Role: Jr. Software Engineer

Responsibilities:

- Worked with the backend team and integration of OData services in Sinomax application, which is leading marketer, manufacturer, and distributor of visco-elastic products with prominent international market positions.
- Worked on multiple projects like Sinomax, Konnect following Agile methodology.
- Experience in writing complex MySQL queries using MySQL Joins.
- Tools & Technologies used: SAPUI5, PHP, MySQL, JavaScript, HTML5, CSS3, Git, Ajax.

Environment: python3, MySQL, PHP, JavaScript, AWS services.

Education: Bachelor's in Computer Science and Engineering from Feroze Gandhi institute of engineering and technology, Raebareli UP in 2015.
