Education

Veer Surendra Sai University of Technology

BTech in Computer Science and Engineering

Burla, India

Aug 2019 - May 2023

- Organising Team of TedX 2022
- Courses:** Data Structures and Algorithms, Operating Systems, Computer Network, Cloud Computing, Theory of Computation
- Graduated with 8.40 CGPA

MP and EV English Medium School

Intermediate

Vishakapatnam, India

May 2017 - May 2019

- Passed with 93.6 percentile

Achievements

2024 **Individual - Rising Star.**, For completing the POC for client within expected deadline at Incture Technologies.

Bhubaneswar

Work Experience

Incture Technologies

Associate Software Engineer - Products

Bhubaneswar, India

Jan 2023 - Present

- Collaborated with a team of four developers to design and implement the dashboard feature of the application, effectively gathering requirements, contributing ideas, and ensuring successful delivery within project timelines.
- Utilized Java Spring Boot framework to develop robust and efficient APIs, enabling seamless integration between different modules of the application and enhancing overall system performance.
- Successfully fetched and manipulated data from SAP HANA database, demonstrating proficiency in working with complex data structures and optimizing queries for improved data retrieval and processing.
- Implemented a performance logging service for the scheduler, enabling monitoring and tracking of scheduler performance metrics, resulting in enhanced system efficiency and improved troubleshooting capabilities.
- Technical Skills:** Java, Spring Boot, SQL, Source Tree, Git
- Soft Skills:** Teamwork, Time Management, Communication, Presentation skills.
- Project: Email Processing Automation using SAP BTP and SAP HANA Cloud**
- Led a project leveraging SAP Business Technology Platform (BTP) to deploy a Java application integrated with SAP HANA Cloud database for efficient data storage and retrieval.
- Implemented Java Mail functionality to fetch emails from a shared mailbox provided by the client, automating the process of email extraction and analysis.
- Developed logic to identify and validate file formats from the received emails, ensuring compatibility and adherence to specified standards.
- Utilized Java programming skills to extract and parse relevant information from the attached files, enhancing data processing accuracy and efficiency.
- Designed and implemented a streamlined workflow to send processed information back to the client's designated email addresses, ensuring prompt and accurate communication.
- Technologies Used:** SAP BTP, SAP HANA Cloud, Java Mail, Java, SQL
- Soft Skills:** Problem Solving, Adaptability, Attention to Detail, Client Communication

Projects

Performance and Logging Service

Incture

Bhubaneswar, India

March 2023 - April 2023

- Led the implementation of a comprehensive service logging system, accurately tracking actions and timestamps for enhanced auditing and analysis capabilities.
- Devised an efficient tracking paradigm for scheduler cycles, maintaining optimal application performance while monitoring and recording scheduling events.
- Engineered a backup logging functionality to ensure the persistence of important logs in the event of SAP logging service malfunctions, ensuring data integrity and facilitating troubleshooting.
- Technical Skills:** Java, Spring Boot.

Skills

Programming Python, Django, Java, Spring Boot, C/C++, JavaScript, SQL, SAP BTP, SAP HANA

Soft Skills Time Management, Teamwork, Problem-solving, Documentation, Engaging Presentation.
