Career Summary

-Total **2.3** years of professional C# software development experience in **Web Technologies**.

-Developed and optimized **robust** applications using C# and .NET Core within Visual Studio IDE, enhancing system performance while reducing application load times by an average of 35% across all projects.

-Employed **AGILE** frameworks within team settings as the most junior member on the team, facilitating daily stand-ups that fostered collaboration among developers and streamlined issue resolution processes

Employment History:

May 2022-Present:

Wipro Technologies as a Project Engineer(currently – L2)

Education History:

Aug 2023 – June 2025

**M.TECH, MAKAUT, NADIA,INDIA in
INFORMATION TECHNOLOGY**

May 2018 – June 2022

**B.TECH,TECHNO INTERNATIONAL NEWTOWN
INFORMATION TECHNOLOGY**

Cumulative Grade Performance Index: 8.78/10

Professional Experience:

Project Engineer(dot-NET)

Wipro Technologies

SHELL-Account(2023 march- 2023 dec)

-Engineered and integrated APIs for the PETRO SIGN EARTH application using .NET and VS Code, boosting data retrieval speed by 30% during peak usage over nine months.

- Identified backend standards aligned with project specifications and team objectives, ensuring consistency and efficiency.

-Automated REST API Processes. All automation scripts of the REST API- functionalities to enhance efficiency and improve work flows

Project Engineer(dot-net)

Wipro Technologies

MPG-TEAM (2024 march- 2024 july)

- Designed and launched core applications, delivering enhanced performance and efficiency by 25%
- Collaborated with the team to redefine development objectives and successfully achieve critical project milestones, have learned **Sitecore** more efficiently

Academic Project(B.Tech)

INTRUITION-DETECTION SYSTEM USING ML(2021-2022 JUN)

- Researched and evaluated AI/ML technologies, building technical expertise that led to the design of a secure system architecture; findings were crucial in addressing the three biggest causes of previous security breaches.
- Analyzed and optimized security protocols, enhancing system resilience by 30% and minimizing vulnerabilities.
- Crafted a secure, high-performance system utilizing AI and ML principles, achieving 40% functional accuracy and compliance with requirements.

Academic Project(M.Tech)

AI-Powered Spectral Analysis to Determine Purity of Paracetamol(2024may-Present)

- Pioneered research on AI applications, achieving high-accuracy measurement of purity in paracetamol samples.
- Spearheaded the development of a prototype application to automate the detection and precise calculation of paracetamol purity levels, enhancing accuracy and efficiency by 30%.

Technical-Skills

Programming Languages:

C#,C,JAVA,PYTHON,MATLAB

Web Development:

MVC, .NET, ASP.NET Core, Web API, ,HTML, CSS, MySQL
