PROFILE

Hard working, creative and proactive. Ambitious, eager to keep growing and evolving in my profession. Constantly developing new skills and abilities

EMPLOYMENT HISTORY

Software engineer, KPIT Technologies Ltd

Bengaluru

Nov 2021 — Aug 2023

AUTOSAR Middleware Developer

- Collaborated on implementing platform services for Stellantis vehicles, specializing in **diagnostic applications** within the **diagnostics team**.
- Developed and maintained **diagnostic and other automotive applications** using **C++** on a **Linux platform**.
- Utilized **AUTOSAR Adaptive Platform** for application development, ensuring compliance with industry standards and vehicle requirements.
- Expertise in tools such as: **PREEvision** for system modeling and design. **Wireshark** for network protocol analysis and troubleshooting. **Visual Studio Code** for efficient coding and debugging workflows. **DaVinci Developer Adaptive** for configuration and development in the adaptive AUTOSAR environment.
- Conducted rigorous testing and debugging to ensure seamless communication and functionality across automotive modules.

Project Engineer, WIPRO Technologies

Bengaluru

Feb 2021 — May 2021

Role: Pre-Project Planning

- Conducted feasibility studies to assess resource requirements and potential risks.
- Developed and documented initial project charters, timelines, and budgets.
- Coordinated resource allocation, ensuring the availability of tools, personnel, and materials.
- Created preliminary workflows and communication protocols for effective team collaboration.
- Supported cross-functional teams in evaluating technical feasibility and dependencies.

Software Engineer, Outlier

Remote

Oct 2024 — Present

- Using my prior experience in coding to improve AI-generated code.
- Engaging with generative AI models to solve real-world coding challenges.
- Evaluating and ranking AI-written code to make it smarter and more efficient

EDUCATION

B.E in Computer Science, Vivekananda college of Engineering and Technology

Puttur

Aug 2016 — Jul 2020
