EDUCATION:

BE Mechanical Engineering 2017

karpaga vinayaga college of Engineering&Technology 6.5cgpa

HSC 2013

Govt.Boys Higher Sec.School,Thiyagadurgam

SSLC 2011

Danish Mission Higher Sec.School,Thiruvannamalai

SKILLS:

LANGUAGE: ORACLE SQL, PL/SQL, UNIX

DATABASE: ORACLE 11G/12C

DEVELOPMENT TOOLS:SQL*PLUS, ORACLE SQL DEVELOPER

OPERATING SYSTEM: WINDOWS

LANGUAGE:

- English
- Tamil

OBJECTIVE:

I aim to join a professionally managed company offering challenging career opportunities for learning, excellence, and continuous improvement.I aspire to thrive in an environment where performance is recognized with new responsibilities and challenges.

PROFESSIONAL SUMMARY:

- Experienced professional with 2 years and 6 months in the IT industry, specializing in Oracle development and production support. Proficient in all SDLC phases from analysis to maintenance, consistently delivering against aggressive timelines. Skilled in:
- Writing complex queries using Analytical Functions, Aggregate Functions, Joins, Set Operators, and Subqueries in Oracle SQL.
- Handling errors using Exceptions, working with Views, Materialized Views, Oracle packages, and indexes.
- Creating Global Temporary Tables, Sequences, and Synonyms.
- Resolving production issues and meeting support SLAs.
- Creating and optimizing database objects: Tables, Constraints, and Indexes.
- Bulk data loading and performance tuning using PL/SQL Collections and Records.
- Developing Stored Procedures, Functions, Packages, and Triggers.
- Expertise in PRAGMA AUTONOMOUS_TRANSACTION for transaction management.
- Quick adoption of new technologies and tools.

WORK EXPERIENCE:

- AUTOZO TECHNOLOGIES PRIVATE LIMITED BANGALORE.

Project #1: Core claims

Client: Evo Brixx

Environment: Oracle 11g/12c, SQL, PL/SQL, JIRA.

ROLES & RESPONSIBILITIES:

- I have actively participated in the entire project lifecycle, collaborating closely with clients to gather and analyze their requirements.I meticulously prepared detailed design documents and Impact Analysis documents,ensuring clarity and alignment with project goals.
- My responsibilities included the creation of Procedures, Triggers, Functions, and Packages, contributing extensively to database design, development, and application tuning to optimize performance.
- In addition to technical contributions,I coordinated the production of monthly, quarterly, and annual performance reports for senior management,ensuring accuracy and timeliness in delivery.
- I played a key role in enhancing,developing,and deploying reports based on new requirements for separate modules,adhering to standardized layouts and data models.
- Monitoring database performance in the production environment was a crucial aspect of my role,allowing me to proactively resolve issues within assigned Service Level Agreements (SLAs).
- I actively participated in resolving production problems for applications,consistently meeting support SLAs,and prepared comprehensive root cause analyses for any incidents that occurred.
- Furthermore,my involvement in SQL query tuning contributed significantly to optimizing database performance.
- I provided essential UAT (User Acceptance Testing) and live support,ensuring smooth transitions and operational readiness.
