## Education

**Sri Eshwar College Of Engineering, Coimbatore**  
Bachelor in Electronics and Communication Engineering

*2021 - Present*  
CGPA: 8.00

## Module Published

### Expiring OTP Generator

- Developed and maintained a Node.js module for generating expiring one-time passwords.
- Implemented advanced security measures to enhance system integrity.
- GitHub Repository

## Projects

### Quick Bill

- Architected a robust backend for a "Real-Time Billing" system using Node.js to handle high transaction volumes.
- Optimized system performance with MongoDB and Redis caching, improving response times and reliability.
- Utilized Docker for efficient containerization and adopted a microservices architecture for modularity.
- Integrated Amazon S3 for scalable image storage.
- **Tech Stack:** Node.js (Express), MongoDB, Docker, Redis, Git.

### Smart Blind Stick for Visually Impaired

- Developed an innovative blind stick with YOLO algorithm for object detection, traffic light recognition, and face identification.
- Enabled phone calls directly through the stick with Twilio integration.
- Enhanced processing with Raspberry Pi for improved functionality.
- **Tech Stack:** Node.js (Express), Python, MongoDB, Git.

### E-commerce Web Application

- Created a scalable e-commerce platform using MongoDB, Express.js, React Native, and Node.js.
- Implemented Mongoose for database management and ensured rigorous security and testing.
- **Tech Stack:** React.js, Node.js (Express), MongoDB, Git.

## Participations and Achievements

- **IEEE Xtreme:** Achieved 256th rank nationwide.
- **Idea Hackathon 2.0:** Advanced to the final round of "StartUp TN".
- **Hackathon:** Won a hackathon organized by Sona College of Engineering, earning a cash prize.

## Technical Skills

- **Programming Languages:** Java, JavaScript, Go (basics).
- **Databases:** MySQL (basics), MongoDB, Firebase, Redis.
- **Web Technologies:** React, React Native, Node.js, Express.js, Docker, Git.
- **Libraries:** Node.js, Express, MongoDB (Mongoose), Socket.io, QR code generation, OTP generation, Password encryption, PDF manipulation.
- **Coding:** Proficient in Data Structures, Algorithms, and Dynamic Programming.
- **Other Tools:** VS Code, Eclipse IDE, Postman, Android Studio, Mongo Shell, Docker, Git, Apache JMeter.

## Coding Profiles

- **LeetCode:** Solved 500+ problems, max rating 1610.
- **CodeForces:** Attended 15+ contests, max rating 965.
- **SkillRack:** Solved 2000+ problems.
- **CodeChef:** Attended 15+ contests, rating 1400 (2 stars).

## Networking Internship

- Focused on mastering routing, switching, and subnetting.
- Gained hands-on experience in IP addressing, DNS configuration, and network wiring.

## Certifications

- Mastering Data Structures and Algorithms in C and C++ - Udemy.
- Full-Stack Development - Udemy.
