PROFESSIONAL SUMMARY

Dynamic Cloud and Application Support Engineer with over 2 years and 7 months of experience in managing cloud environments (Azure, AWS), providing L1/L2 support, and ensuring seamless operations. Proficient in incident management, API testing, and creating business requirement documents. Demonstrates expertise in cloud monitoring, troubleshooting, and SQL database management, leveraging tools like Power BI, Grafana, and ServiceNow. Adept at maintaining system stability, performance, and security while delivering exceptional customer service.

SKILLS & COMPETENCIES

- Cloud Platforms: Microsoft Azure, AWS
- Monitoring and Analytics Tools: Grafana, Azure Monitor, PowerBi, Azure Data Explorer
- Cloud native application system uptime, performance monitoring and Downtime tracking
- L1 Support, API Testing (Postman), BRD Documentation
- Access Control: Azure AD, MangleEngine
- ServiceNow: Incident Management, Change Request Management, Service Request
- Backup and Disaster Recovery
- System Administration: Linux and Windows
- Database: Sql, Nosql
- Others: Git, Github, O365, Application Support and troubleshooting.

WORK EXPERIENCE

System Engineer | TCS, Pune

(05/2021) – (11/2023)

Project - DFOS

- Experienced in **Azure** and Provided **technical support**.
- Implemented **high availability solutions** on **Azure** across **availability zones** and **regions**.
- Expertised in **Azure Security Groups, VPC, Routing Tables, Subnets**.
- Managed and administered **Microsoft Azure cloud**, including **provisioning, configuration, performance monitoring, policy governance, and security**.
- **Migrated/setup infrastructure** to **cloud-based solutions**.
- Managed **security** and **access controls** for cloud solutions.
- Assisted with **deployment, configuration, and troubleshooting** of **Azure VMs**.
- Configured and managed **Azure Load Balancers** for efficient network traffic distribution.
- Supported **Azure networking services** including **Virtual Networks, NSGs, and VPN Gateways**.
- Utilized **Azure Monitoring tools** to track **performance** and **health** of cloud resources.
- Implemented and managed **backup and disaster recovery** using **Azure Backup** and **Site Recovery**.
- Maintained detailed **documentation** of configurations, processes, and troubleshooting steps.

- Provided exceptional **customer service** and collaborated with team members for seamless **Azure services** integration.
- Delivered **L1 application** and **cloud support** for Azure and AWS environments.
- Monitored system health using **Azure Monitor**, **AWS CloudWatch**, and **Grafana** to ensure uptime and performance.
- Utilized **Power BI** for report generation to drive operational insights.
- Managed **incidents**, **assess impact**, **confirm priority**, and provide **solutions** to end-users. Communicate **incident progress** and **collaborate with resolution teams**.
- Handled **SRs** according to service levels, ensure execution or assign to contributors, and update end-users on progress until closure.
- Operated **routine activities**, handle **alerts** using **monitoring tools**, and minimize impacts on end-users.
- Utilized tools like **Grafana** and **Azure Monitor** to track **performance metrics** and **manage alerts**, leading to improved **system reliability** and **reduced downtime**.
- Provided robust support for applications on **edge devices**, including **troubleshooting** and **optimizing performance**.
- Generated detailed **reports** using **Power BI** and **Azure Data Explorer**, driving insights that optimized production processes.
- Implemented scripts for routine tasks, enhancing **efficiency** and reducing **errors**.
- Focused on preventive measures to improve **system stability** and **performance**.
- Worked closely with **cross-functional teams** to align technical operations with **business goals**.

EDUCATION

BE in Information Technology | Pune University
CGPA 6.89

Graduation Year (2020)

Diploma in Information Technology | MSBTE
Percentage 64.80%

Diploma Year (2016)

10th | Maharashtra State Board
Percentage 69.20%

SSC Year (2012)

CURRICULUM PROJECT PROFILE

Cricket Match Outcome Prediction Using Machine Learning

- Pre-processed data and applied classifiers on it to create Match Outcome prediction model.
- Used Libraries in Python – sklearn, matplotlib, pandas.

Library management system

- Built a Java based Library management system application.
- Designed SQL database (with one-to-many relationship).

CURRICULUM ACHIEVEMENTS & CERTIFICATION

- Completed Computer Hardware Maintenance And Networking At Indo German Tool Room, Aurangabad
- Completed ITIL 4 Foundation Certification in IT Service Management in 2021
