Career Objective

- To work in an organization where I can contribute and enhance my knowledge and growth.
- To enhance my working capabilities, professional skills, business efficiencies and to serve my organization in best possible way with share determination and commitment to realize the organizational objectives.

Professional Preface

- Having 2.6 years of professional experience in information technology with extensive experience in the field of Big Data development.
- My expertise working with Big Data components and Eco-Systems including Data ingestion and data processing using Spark Transformations, Spark Core, Spark SQL and performance tuning.
- I hands-on experience on snowflake data warehousing.
- I have practical hands-on experience with a range of Amazon Web Services, such as S3, EC2, EMR, RDS, Redshift, Athena, Glue, and IAM.
- My work involves ETL/ELT processes to handle large datasets in different formats, including structured, semi-structured, and unstructured data. I've been actively involved in data ingestion pipelines, particularly using PySpark to source daily data into AWS S3.
- My technical toolkit includes proficiency in HDFS, PySpark, Sqoop, Python, SQL, Hive, and databases like MySQL and Oracle.
- I am skilled in writing code in Python using PyCharm and Jupiter for development. I also have hands-on experience with data analysis using Python libraries like NumPy and Pandas.
- I am well-versed in working with Cloudera and various data formats, including JSON, Parquet, AVRO, and ORC. I have demonstrated my capabilities by implementing proof of concepts for streaming data transformation using Apache Kafka and data orchestration tools like Apache NiFi. Additionally, I have hands-on experience with AWS Glue for data transformation and ETL
- My professional background includes working within an Agile/Scrum methodology, which emphasizes collaboration, flexibility, and iterative development processes.

Technical Profile

Cloud Technologies	AWS(S3,GLUE,IAM,EC2,EMR,CW
Big Data Ecosystem	Spark, MapReduce, HDFS, Yarn
Programming Languages	Python , Linux (shell scripting)
Databases and Warehouses	Oracle , Mysql, snowflake,
Source/Target Code Management	Git, Git-Hub
Project Management Tool	JIRA, WinSCP , Putty
IDE'S	PyCharm, Jupiter
Operating Systems	Linux, Windows, Mac OS

Professional Experience

Organization : BIZKRIEG SOLUTIONS PRIVATE LIMITED

FEB 2022 - PRESENT

Project Name : Retail Data Analysis

Role : Data Engineer

Project Details

Description

The project aims to automate the ingestion process of retail data to streamline the flow from raw data acquisition to meaningful business insights. This will support the retail company's goal of leveraging data to optimize inventory management, improve customer satisfaction, and drive overall business growth.

Technologies Used: Pyspark , Snowflake, Aws Glue, Aws (S3, IAM, CW), JIRA, GitHub

Responsibilities:

- Understand the client's requirement for developing the project and providing solution to their business growth-related problems.
- Engage with Business Analysts (BAs) to gain a clear understanding of the requirements, identify missing scenarios, and seek clarification from BAs..
- We perform transformations on JSON data available in AWS S3 (source) and migrate this data to CSV format in AWS S3 again Developed and tested various pipeline process using Apache Spark jobs.
- Develop PySpark code for the migration and transformations, create a Glue job, and then provide the source code to our scheduling team
- Worked in spark jobs optimization various design enhancements and production bugs fixing.
- Perform data validation and unit testing.
- Write Data Definition Language (DDL) statements for Snowflake.
- Create Snow pipe integrations for continuous data loading from AWS S3, utilizing SQS to our Snowflake external tables.
- Involved in working on Spark SQL code as an alternative approach for faster data processing and better performance.
- Monitor the pre-validation process to validate client data

Education

Bachelor of Engineering (Mechanical Engineering)

2022

KBC North Maharashtra University Jalgaon

Scholastic

I hereby declare that the particulars of information and facts stated herein above are true, correct and complete to the best of my knowledge and belief.

Place: Jalgaon
