

Saaish Gulekar

AI Data Trainer, Annotator and Developer

+919769598740 | @sgulekar17@gmail.com | LinkedIn

Summary

AI Data Trainer & Annotator specializing in LLM optimization via prompt engineering, RLHF and SFT, with robust development expertise.

Experience

Freelance/Contract	December 2023 - Present
AI Data Trainer & Annotator	Remote
- Collaborated with leading companies such as Scale AI, Mavn AI, Invisible Technologies, LabelBox, and Pareto AI. - Trained and enhanced Large Language Models (LLMs) for diverse applications including programming (Python, Java, C++, JavaScript, SQL), technology, multilingual (English, Hindi, Marathi), multimodal (Text, Images, Video) and general tasks. - Worked on state-of-the-art (SOTA) AI models like Genesis and Gemini, employing prompt engineering, Reinforcement Learning from Human Feedback (RLHF) and Supervised Fine-Tuning (SFT) to optimize performance. Conducted code reviews, created test cases and wrote code across various programming languages to ensure robust model performance. - Established best practices for AI data quality and responsible AI development, collaborating with domain experts. Analyzed and verified model generated responses, identifying and rectifying errors and guideline violations to maintain the highest quality output. Created high quality responses and outputs that served as training data for AI LLMs, further enhancing model accuracy and reliability.	

Education

Dr. D Y Patil's Ramrao Adik Institute Of Technology	July 2021 - June 2024
Information Technology	Bachelor of Technology
Vivekanand Education Society's Polytechnic	July 2018 - June 2021
Computer Engineering	Technical Diploma

Skills

AI Training & Data Annotation

Large Language Models (LLMs), Prompt Engineering, Reinforcement Learning from Human Feedback (RLHF), Supervised Fine-Tuning (SFT)

Backend Development

Java, Spring Boot

Programming Languages

Python, C, C++

Frontend & Web Technologies

HTML, CSS, JavaScript, React

Database

SQL & NoSQL Databases
