Profile

I'm a passionate DevOps enthusiast with hands-on experience in deploying applications and managing scalable infrastructure using cutting-edge technologies like Terraform and Jenkins. My goal is to contribute to mutual growth through collaborative efforts in innovative DevOps solutions.

Skills

Cloud Platforms	AWS, GCP
Operating Systems	Linux
Version Control	Git, GitHub
Containerization	Docker
Container Orchestration	Kubernetes
CI & CD	Jenkins
Scripting	Bash
Infrastructure Provisioning	Terraform
Configuration Management	Chef, Ansible

Experience

Tata Consultancy Services Limited

SYSTEMS ENGINEER - GOOGLE YOUTUBE

India

March 2020 - April 2023

- Orchestrated AWS and GCP cloud infrastructure provisioning using Terraform, aligning with **DevOps principles** and showcasing AWS and GCP DevOps expertise.
- Automated infrastructure builds to enhance efficiency, integrated **CI/CD pipelines** with Jenkins for deploying Dockerized applications on **Kubernetes** clusters.
- Demonstrated expertise in establishing and configuring Docker container networks, contributing to a robust containerized environment.
- Utilized AWS services including **ALB, ASG, EC2, IAM, S3, Redis, EBS, Route53, RDS, Security groups**, and **VPC**.
- Proficient with configuration management tools like **Ansible**, as well as build management tools such as **Git, Shell**, and **Jenkins**.
- Created network isolation for **Docker** containers using bridge networking and securely configured for new containers.
- Worked on Installing/Upgrading **Jenkins** Master/Slave, participated in the release process, and deployed application (WAR and JAR) and UI binaries to the Apache Tomcat Server.
- Conducted thorough checks for code quality and application security using **SonarQube, Black Duck**, and **Fortify** for both frontend and backend applications.
- Implemented **Multi-stage builds**, reducing Docker images by 200%, and improving build time by 80%.
- Proficiently managed diverse Linux distributions (**RedHat, Debian, CentOS, Ubuntu**) to ensure system stability and security.
- Provided **24x7 coverage**, recording and reacting to system events as per procedures.
- Investigated and resolved network and infrastructure issues using predefined **runbooks**.
- Determined **incident severity and urgency**, escalating to Engineering staff when necessary.
- Maintained communication during system-impacting events and moderated technical bridges.
- Led **Root Cause Analyses (RCAs)** and recommended corrective actions and runbook updates.
- Successfully maintained, isolated, troubleshot, and resolved service failures within a Service Provider Network Architecture for the Google YouTube project, ensuring **uninterrupted operations**.
- Collaborated with Google and U.S onsite Network Engineers, providing expert guidance on **intricate network issues**.
- Managed comprehensive documentation of development phases and system monitoring specific to the **Google client engagement**.
- Actively engaged in initiatives for ongoing **operational enhancements**.
- Conducted analysis, resulting in a **17% improvement in operations**.

Achievements

Tata Consultancy Services Limited

India

March 2020 - April 2023

- 2023 **Xcelerate Warrior (2023)**: Acknowledged for excellence during the FIFA World Cup for Google YouTube, achieving a historic peak viewership of 4.08 million.
- 2023 **Certificate of Achievement (2023)**: Recognition from Google YouTube for exceptional contribution and commitment during the FIFA World Cup.
- 2022 **Continuous Feedback Star (2022)**: Recognized for outstanding contributions in maintaining Network and Video operations at Google YouTube, particularly during the FIFA World Cup, where we achieved a historic peak viewership of 4.08 million.

Education

Mahatma Gandhi University

Bachelor of Computer Applications

India

June 2016 - September 2019
