Technical Skills

- **Knowledge and proficiency :** HTML5 | CSS3 | JavaScript | React JS | ES6 | Redux | Babel | Next JS | Tailwind | Bootstrap | Figma | Typescript | ExpressJS | MongoDB | NodeJS | JQuery | AWS | MySQL | Git | Github | Shell | Apache server | API | RestAPI | Linux

Work Experience

Responsibilities:

- Developed web applications using front-end languages such as **HTML**, **CSS**, **JavaScript(JS)**, and familiarity with library such as **ReactJS**. As a developer with experience in **React Hooks**, I have the ability to write efficient and reusable code using the latest features of React. With React Hooks and **Redux**, I can add state and **life-cycle methods** to **functional components** without the need for **class components**, resulting in simpler and more modular code. This skill set makes me a valuable asset to any React project..
- Expertise in **responsive design**, **cross-browser compatibility**, and **performance optimization**. Excellent **problem-solving skills** and ability to work in a fast-paced environment..
- Collecting data from client-side creating database for all the websites and handling all for data manipulation. **Continuous Integration/Deployment** Pipeline Integration using **AWS S3 bucket**, **pull requests**, **code review**.

Houzbay Consulting pvt ltd. (Aug 2023 – May 2024)

React JS Developer

- Developed a real estate inventory dashboard using the MERN stack with **React.js**, **Redux**, **Tailwind-UI**, **Axios**, and **CSS** for the frontend. The backend utilized **Node.js**, **Express.js**, and **MongoDB** with **Mongoose** for data modeling. Implemented **JWT** for secure **authentication**, **Integrated S3 for media storage** and with **Apache Server** for deployment. Key features include advanced property search and filtering, real-time updates, **role-based access control**, and an analytics dashboard with **Chart.js**. The application is fully **responsive and mobile-friendly**.
- Collaborated with the **development** team to design and **implement** new features for a customer-facing web application, resulting in a **25% increase** in user engagement.
- Utilized **React JS**, **Redux toolkit** for **state management** to enhance the application's responsiveness and user interface, Implemented **RESTAPI** integrations to fetch and display dynamic data, optimizing the application's performance.

Ceyone Marketing Pvt Ltd. (Feb 2021 - Jul 2023)

Web Application Developer

- Developed and **maintained dynamic web applications** using a combination of **ReactJS**, **hooks**, **functional components**, **performance optimization** and **contextAPI**. Collaborated with UX/UI designers to implement responsive and visually appealing front-end solutions that enhanced the overall user experience.
- Designed and implemented **RESTAPIs**, improving the efficiency and scalability of the backend services. Conducted code reviews and provided constructive feedback to ensure code quality, consistency, and adherence to best practices.
- Collaborated with **cross-functional teams** to understand business requirements and translate them into technical specifications.
- Contributed to the development of a customer portal, integrating front-end and back-end components to deliver a **seamless user experience**. Implemented database solutions using **Mysql**, **MongoDB**, **optimizing data retrieval**

Academic Details

Bachelor of Technology **Kalam Institute Of Technology (BPUT)** *Berhampur, Odisha* **Aug 2016-April 2019**

- Electronics and communication engineering (Activities and societies: Under top 10% from batch)

Projects

- **FullStack Blog App:** (MongoDB, ExpressJS, ReactJS, NodeJS, Firebase, Google auth, JWT, AWS S3)
- **Article Summarizer:** (REACT, Tailwind, Redux Toolkit, JAVASCRIPT, RapidAPI)
- **Uber clone:** (Nextjs, Clerk authentication, Tailwind, Google map API, Stripe payment)
- **Gallery Gleam** (A photo album app): (Nextjs, cloudinary, Typescript, Tailwind, Shadcn)
- **MoviFlix:** (NextJs, Tailwind, Mongoddb, and NodeJS)
- **Weather App:** (HTML, Chakra UI CSS, REACT, JAVASCRIPT, Weather API)
- **Ecommerce App :** (HTML, Tailwind CSS, REACT, JAVASCRIPT, Fake Store API)
