PROFESSIONAL SUMMARY

I hold a Bachelor's degree in IT and specialize in assessing the security of web and Android applications through Vulnerability Assessment and Penetration Testing (VAPT) aligned with OWASP standards. I am known for my collaborative approach, working closely with clients to identify and address vulnerabilities. I am excited to leverage my practical expertise and passion for cybersecurity to strengthen organizational security efforts.

WORK EXPERIENCE

Engineer Risk & Compliance Officer at MindSprint

Bangalore 19/07/2023 — 09/05/2024

- Experienced in network protocols and security within the e-commerce sector, ensuring robust protection of applications and infrastructure.
 - Performed security assessments on various web applications and systems using tools like Burp Suite, Kali Linux, and actively monitored threat intelligence platforms such as CloudSek, BlueVoyant alerts.
 - Collaborated with clients on Vulnerability Assessment and Penetration Testing (VAPT), identifying weaknesses and providing actionable solutions to enhance security.
 - Led and managed teams, overseeing task assignments and ensuring timely and efficient delivery of security assessment projects.
- Prepared detailed reports documenting security findings, including recommended remediation steps and best practices to address identified vulnerabilities.

Cyber Security Engineer, Hyperspace IT India Private Limited

Hyderabad 10/12/2020 — 05/12/2022

- Performed Penetration Testing and Vulnerability Assessments to identify, exploit, and remediate security flaws across various systems and applications.
- Conducted web security testing following industry-recognized OWASP and SANS standards to ensure comprehensive risk mitigation.
- Skilled in manual security testing using Burp Suite Proxy, with a focus on identifying and resolving false positives for more accurate vulnerability reporting.
- Provided detailed, actionable reports on findings and delivered strategic recommendations, guiding clients in strengthening their security posture.

CERTIFICATION

- Certified Ethical Hacker Certification (CEH).

SKILLS

- Vulnerability Assessment and Penetration Testing
- Report Preparation and Documentation
