OBJECTIVE

Experienced Full Stack Developer with 2 years of expertise in HTML, CSS, JavaScript, .NET, and C#. Proficient in developing user-friendly interfaces, RESTful APIs, and optimizing databases. Demonstrated success in contributing to various projects and implementing new features. Eager to further enhance my skills in a dynamic environment.

SKILLS

Front-end: HTML, CSS, JavaScript, Kendo UI, Kendo jQuery, AJAX, React.js, Font Awesome, Bootstrap, and templates.

Back-end: .NET, C#, Web API, MVC, MVVM, and Dapper.

Database: SQL Server.

PDF Integration: Adobe (for adding textboxes to PDFs for data printing).

WORK EXPERIENCE

Intellirose Software India Pvt Ltd - Full Stack Developer

[Aug 2022 - Present]

- In my role, I've been responsible for a diverse range of tasks and projects. On the front end, I've leveraged technologies like HTML, CSS, and JavaScript to create engaging and user-friendly web interfaces. I've also implemented Kendo UI and Kendo jQuery to enhance the user experience, along with AJAX for asynchronous data updates.
- On the back end, I've worked extensively with .NET and C#, developing server-side logic to power our applications. I've created RESTful APIs using Web API to enable seamless communication between the front-end and back-end components. To ensure clean and organized code, I've adopted the MVC and MVVM architecture. Moreover, I've improved database performance by transitioning from Entity Frameworks to Dapper, resulting in more efficient data retrieval and storage.
- My contributions have extended to various products within our portfolio, including IRSLogics, where I've played a crucial role in converting IRS forms into a user-friendly UI. I've also worked

on InsuranceCRM, CreditLogics, and Student Logics, implementing new features and enhancements. Managing permissions for active users within administrative tools has been another aspect of my responsibilities.

Current Project -

- Involved in the implementation of Electronic Signatures (ESIGN) within web forms. Leveraging technologies like Knockout.js and MVC .NET, I'm ensuring a responsive and intuitive UI for collecting and processing signatures.
- I've used Adobe to integrate textboxes into PDFs, streamlining data printing processes. I have also integrated a signature pad using React Signature Pad to capture and process electronic signatures.

EDUCATION

Bachelor of Technology (COMPUTER SCIENCE AND ENGINEERING - BPUT) [\[2018 - 2022\]](#)

Raajdhani Engineering College, Bhubaneswar, Odisha

GPA: 8.5

STD XII (SCIENCE - CHSE)

[\[2016 - 2018\]](#)

DD JUNIOR COLLEGE, Odisha

Percentage : 56

STD X (GENERAL SCIENCE - ICSE)

[\[2016\]](#)

Saint Teresa's School, Odisha

Percentage : 78

AWARDS & ACHIEVEMENTS

- Won the debate competition in college, served as a coordinator for various events, and have been recognized as a valuable team player within the company.
- Collaborated with cross-functional teams to define, design, and ship new features, Mentored junior developers, providing guidance and support to foster their professional growth.
