## ETL developer

Experienced ETL Developer with over 2 years of expertise in SQL development, data integration, and optimizing data workflows. Proficient in tools like AWS Redshift, Glue, and Oracle SQL. Adept at designing, implementing, and maintaining ETL pipelines to streamline data extraction, transformation, and loading processes. Recognized for delivering efficient, high-quality solutions and contributing to team success.

## WORK EXPERIENCE

### **Procter and Gamble • Hyderabad • 07/2024 - 10/2024**

#### **Supply chain Senior Analyst • Full-time**

- Assisted in implementing SAP OMP for supply planning and inventory management.
- Analyzed data to support operational efficiency and improve supply chain processes.
- Perform daily operations on power BI

### **Capgemini • Bangalore • 08/2021 - 07/2023**

#### **Associate consultant • Full-time**

- Developed and maintained data warehouses using AWS Redshift and Glue for GE Healthcare.
- Performed ETL operations using SQL to extract, transform, and load data effectively.
- Managed monthly object migration and optimized scripts for better performance.
- Designed and enhanced SQL procedures and views using Oracle SQL Developer.

## EDUCATION

### **Bachelor of Technology in Electronics and Communication Engineering in ECE**

Maharaj Vijayaram Gajapathi Raj College of Engineering • Vizianagaram, Andhra Pradesh •  
08/2017 - 07/2021

## AWARDS & SCHOLARSHIPS

### **Rising Star award and Best Team recognition**

Capgemini

### **Rising Star**

Capgemini

## PROJECTS

### **Material Analytics Parts Portfolio (MAPP)**

Supported client with backorder data management by implementing optimized SQL procedures and views. Enhanced dashboards per user requirements, improving order tracking and minimizing supply chain discrepancies.

### **Service Request (SR)**

Managed service request data through SQL procedures and views, optimizing operations for technicians and owners. Created dashboards as part of monthly releases and migrated data using GitHub.

### **Olay : Skincare product**

Implemented an Integrated Planner system for material procurement and production planning, utilizing OMP and SAP tools to streamline operations. Improved inventory management, optimized supply chain processes, and enhanced production efficiency. Collaborated cross-functionally to ensure timely material availability and adherence to production schedules, resulting in reduced lead times and cost savings.

## SKILLS

AWS Glue, AWS Redshift, C, Data Warehousing, ETL Development, GitHub, Leadership, MYSQL, OMP, Oracle SQL, PLSQL, Problem-Solving, Python, SAP, SQL, Work Management, Microsoft Power BI
