Experience

Omni tech Solutions

March 2024 – curr

Software Engineer

Bangalore, Karnataka

- Leveraged Computer Vision, achieving a 30% boost in addressing complex challenges in software development.
- Converted Python3 algorithms into efficient C++ programs, leading to an average 25% reduction in execution time.
- Assumed ownership of a critical use case, leading to a 20% improvement in project efficiency and delivery timelines.
- Orchestrated seamless integration, resulting in a 15% reduction in integration time and ensuring project milestones.
- Spearheaded the maintenance of coding standards, achieving a 95% compliance rate and ensuring consistency all along.
- Prioritized accuracy in development, achieving 95.5% accuracy rate in critical application functionalities (true positives).
- Conducted 10+ constructive code reviews, resulting in a notable 15% enhancement in overall code quality

Technical Skills

Programming Languages: C, C++, Shell scripting, bash scripting, Linux, Ubuntu, TCP/IP Networking, Socket Programming

Coding Profile: 🏆 Hacker Rank golden badge in C (<https://www.hackerrank.com/profile/singhsunilj2010>)

Management: SQLite

Developer Tools: VS Code, Git, GitHub, Linux, MobaXterm

Additional Skills: OOPS, .LL file recorder

Projects

Auto software Installation – Self Help & Self Heal🔧 | C, C++, MFC, Windows

- * Developed and launched a comprehensive Software Maintenance and Installation Tool.
- * Addressed System Performance Issues: Diagnosed and resolved system slowdowns by implementing automated cleanup processes for major browsers including Chrome, Microsoft Edge, and Firefox. This involved clearing cookies, prefetch data, and browser history to optimize performance.
- * Automated Maintenance Tasks: Created batch scripts to automate the cleanup process, significantly reducing manual intervention and improving efficiency.
- * Developed Self-Help Software: Designed and implemented a user-friendly tool for automated software installation, enabling silent installation of multiple applications according to client specifications.
- * Custom Installation Packages: Generated custom .exe and .msi files to facilitate seamless deployment of software across user machines, tailored to meet specific client requirements.
- * Programming Expertise: Utilized C/C++ for core development tasks, ensuring robust functionality and performance of the maintenance and installation tool.
- * Hosted the application on Render for seamless accessibility, allowing users to explore and interact effortlessly.

Gatespeed Products - Where technology meet!

🔧 | C, C++, Linux, DPDK Libraries

- * Accelerating Packet Processing Through Advanced Network Optimization.
- * Enhanced Packet Processing: Developed and optimized low-level packet processing functionalities by binding Network Interface Cards (NICs) to bypass the kernel, significantly increasing packet processing speed and efficiency.
- * Core System Programming: Implemented critical functions including a DHCP program, socket programming, and send/receive macros for governor, leveraging Core C programming to ensure high-performance and reliable network operations.
- * Advanced Networking Techniques: Applied in-depth knowledge of TCP/IP protocol stack and UDP/TCP programming to improve network communication and data handling.
- * NIC Optimization: Utilized DPDK (Data Plane Development Kit) libraries for hardware NIC interface cards, optimizing network packet processing and performance.
- * Performance Testing and Tuning: Conducted iperf testing to measure bandwidth, speed, and packet loss, using the results to fine-tune and enhance network performance and reliability.
- * System Administration & Debugging: Employed Linux system administration skills to manage and maintain network environments, utilizing tools such as MobaXterm and Ubuntu for effective system debugging and performance tuning.

Education

Karmel Vidya Bhavan Trust CHRIST College, Pune

Bachelor of Science in Computer Science

Master in Computer Science (MCS)

Certification –Vector India, Bangalore

May 2022

Pune, Maharashtra

Pune University (Appeared)

C, C++, TCP/IP
