Here I have work with Laravel CMS projects CRUD operation and REST full API with Laravel, full stack development and main moto is stability of the application without any bug and time to time client requirements update in their respective web app.

skills:

Laravel, Blade Template, ajax, Bootstrap CSS, HTML, jQuery, data tables, React, java script.

CMS project get involves CRUD operation for various segment of use cases content add and spatie permissions.

CMS come delivery web app this project I was handled role management, auth configuration, permissions, multiple data import via csv and excel.

- Third party Api's integration.
- Building REST Api's
- Bug Fixing
- Database Indexing
- Redis Server

PHP Web Developer *Adhi College | March-2021 to Nov-2023 | Total: 3 years*

My objective of work is to update the event page unique department and test that page finally uploading into the server. Periodically need to update the entire web pages when it's required. Maintenance of the entire website like contact page email forms and creating new pages and developing particular pages to fulfill the requirement criteria.

Some event pages are developed for user end uploading models with database handling for regularly uploading for their content to publish in our website.

Overall, some unique projects developed for our organization work make an easier and systematic and reliable process.

Programming languages used: Core PHP, MySQL, HTML, Bootstrap CSS, Java Script, Ajax, jQuery.

Data visualization project: d3.js, Geo. JSON.

I have also worked with symfony movies project that projects available on GitHub in this project I have made CRUD application with Twing and tailwind CSS, Custom CSS & js and custom fields so I have learned forms, routing, DB handling, special vs code platform extensions PHP intellipense, postdoc comment, PHP name space resolver, java script ES6, symfony code snippets, symfony for vs code, Twig, Twig language 2, MySQL the above extension I have familiar with.

I have worked with Rest API JWT token, WordPress.
