EDUCATION

The LNM Institute of Information Technology

B.Tech - Computer Science and Engineering

Jaipur, Rajasthan, India

2020 – 2024

EXPERIENCE

Software Developer Intern at iMumz

Sept'24 - Current

- Contributing to the backend side of an application to cater the comprehensive wellness needs of users, ensuring robust and efficient performance, seamless data management and integration.
- Leading the migration of workflows from SQL to MongoDB using Retool and Metabase, ensuring smooth transitions and optimization of data handling across the system.
- Building Prana, an internal tool for a 100+ member team, focusing on user task management.
- Collaborating with cross-functional teams to design and develop new features and improve existing functionalities

Software Developer Intern at PARK+

Jan'24 - May'24

- Engineered multiple production-level services, including Driver Trips and Dealer, enhancing system efficiency by 40%.
- Optimized driver tracking and credit line flow, resulting in a 30% faster processing time.
- Automated several manual processes, streamlining operations and enhancing productivity by 30%
- Designed and implemented scalable RESTful APIs using Golang and Python; ensured data integrity with Kafka, increasing system reliability and reducing query times.

PERSONAL PROJECTS

Ecommerce Website (Akkad Bakkad) | *Node.js, React.js, Express.js, MongoDB, CSS*

April 2023

- Launched a web application for 3,000+ college students, streamlining food ordering from canteens to hostels; reduced ordering time.
- Engineered and integrated essential features such as Payment Gateway, User Registration, and Order Placement; streamlined operations, boosted overall user satisfaction by 30%.
- Revamped order tracking system, reducing customer inquiries; improved user experience

Real time Code-Editor | *Node.js, Socket.io, Express.js, HTML, Javascript, CSS*

August 2022

- Led the development of a real-time code editor platform, enabling concurrent document editing and instant synchronization for multiple users, improving collaboration efficiency.
- Enhanced user experience by implementing real-time updates, ensuring immediate visibility of edits by any participant, resulting in a increase in user satisfaction.

SKILLS

Languages: Python, Golang, C/C++, HTML, CSS, JavaScript

Technologies: Node.js, React.js, MongoDB, Express.js, My SQL, Postman, Retool, Metabase

Computer Fundamentals: DBMS, Operating System, OOPS, Computer Networks

Soft Skills: Problem-solving, Communication, Adaptability, Teamwork, Creativity, Leadership

ACHIEVEMENTS

- Solved more than **500** Problems on various coding platforms
- Secured 854 rank in Google Kickstart Round D 2022
- Secured **218** Rank in CodeRush'2023
- IICC-2022: Secured an All India Rank (AIR) of 872 out of 89,000+ participants.
- Participated and Secured Position 3 in Idea Hackathon in association with IEEE Student Branch-LNMIIT
